Invite Four Richest Men In America To Help Congress In Solving Farm Problem

By WILLIAM K. HUTCHINSON

WASHINGTON, March 27.—In the
most spectacular move ever made in
behalf of agriculture, the four richest
men in America—John D. Rockefeller,
Jr., J. Pierpont Morgan, Andrew W.
Mellon and Henry Ford—were asked
today to help congress solve the farm
problem.

The names of these four billionaires
—probably the four richest men in
the world—topped a list of financial,
industrial and labor leaders sent tel-
egraphic invitations to participate in
the deliberations of the Senate Agri-
culture committee over a new Farm-
Relief bill. If they accept, the farm-
ers of America will have the nation's
financial and industrial "brains" at
their disposal in drafting a program
of agricultural relief.

Ask Famous Men To Aid
Beside Rockefeller, Morgan, Mellon
and Ford, the committee invited Paul
M. Warburg, famous international
banker and active head of Kuhn,
Loeb and company; Owen D. Young,
head of the General Electric company
and America's reputation expert;

Stimson Facing Many Problems

New Secretary Of State Con-

ONE WITH CANADA OVER RUM SCHOONER

By GEORGE R. HOLMES

WASHINGTON, March 27.—Henry
L. Stimson, the new secre-
tary of state, figuratively took off
his coat today and started to work
on a set of problems probably
more numerous and complicated
than ever before faced an incoming
foreign minister.
Stimson will not actually take over
the helm until Friday, but he started
to function within half an hour after
study of the entanglements he has in-
herited.

Much Work Ahead.
In almost every direction the new
secretary looked today he saw work
ahead, and much of it delicate and
extremely important.
He inherits revolutions in Mexico
and China, with their inevitable com-
plications concerning American citi-
zens and their property.
Even with Canada, the traditional
friend of the United States, there is
an acute controversy over the gun-
fire sinking of the Canadian schooner.

GIBBSTOWN, N. J., March 27.—The
cause of the blast in the Du Pont

snuffed out the lives of two workmen
yesterday rocking cities within a radius
of 10 to 20 miles never will be known.
"The only two men who could throw

plant officials said today. "We have
no way of knowing what happened."

WASHINGTON, March 27.—So
serious are the international com-
plications growing out of the coast
guard's sinking of the Canadian
auxiliary schooner "I'm Alone"
by gunfire, that the whole ques-
tion of the freedom of the seas
threatens to be injected into the

the state department.
Moving cautiously to be sure of
their facts, the Canadians and British
are preparing to confront Secre-

Market Rallies After Noon Hour

Reports Morgan Loans \$15-
000,000 In Call Market
Brings Rally

SPECULATORS SELL TO TAKE PROFITS

By W. S. COUSINS
International News Service Financial Editor
NEW YORK, March 27.—Selling
the action to the word, New York
bankers rushed in new money sup-
plies to the stock market shortly after
the noon period today and averted
what appeared to be another crash
in prices, for the time being at least.
The market rallied sharply on re-
ports that J. P. Morgan had loaned
\$15,000,000 in the call market at 15
per cent. with the oil stocks once
more at the head of the procession.
The tap of the opening gong on the
big board today revived the old prob-
lem in Wall Street, where to get the
money to continue operations in the
stock market. The banks are hold-
ing tight out of necessity to take care
of the April interest and dividend
payments next week and the "outsid-
ers," who have caused the bankers
such a great annoyance, were "tight
as a drum" even with 15 per cent of-
fered for money.
Ugly rumors about "25 per cent call
money" and calamities of one kind or
another floated around the financial
district with speculators leaping from
the market in the forenoon, at fall-
ing prices. Speculators who had
brought at yesterday's low prices were
ready to take profits, thus increasing
the load of selling orders.

(International News Service)

AURORA, Ill., March 27.—With the
entire city of Aurora stirred to a
frenzy over the killing of Mrs. Joseph
De King in her home by dry raiders
and with the citizens demanding a
thorough sifting of facts and the
fixing of responsibility, two routine
investigations were under way today.
One is being directed by Coroner
Herman J. Vierke whose only official
interest is with the slaying.
The other is headed by State At-
torney George Carbery of Kane
county, who, through the grand jury
will inquire not only into the killing
of Mrs. De King and the slaying of
one of the raiders by her 12-year-
old son but also into the question of
the legality of the raid.

Raiders Threatened.
Mrs. De King was shot in the ab-
domen and mortally wounded after
she is said to have threatened the
raiders with a gun because they had
beaten her husband insensibly. Sec-
ling his mother shot down, the boy,
Gerald, seized his father's revolver
and wounded one of the raiders.
Robert A. Milroy, formerly an as-
sistant United States attorney, now
counsel for the De King family de-
clared that unless immediate action
is taken against the raiders whom he
accused of "wantonly murder," he will
petition for a special grand jury and
the appointment of a special prose-
cutor to take the case out of Car-
bery's hands.

In a preliminary statement Car-
bery declared he would back up the
sleuthing officers, including Deputy
Sheriff Roy Smith who did the kill-
ing. In a later and less emotional
statement, however, the prosecutor
said he would present all the evi-

TWO OF VICTIMS ARE GIRL TWINS

(International News Service)
RIDGWAY, Pa., March 27.—Three
children were burned to death when
fire destroyed their home in Em-
porium, near here, early today.
The victims were Thelma and Vel-
ma Smith, 12, twins, and Mary Ann
Smith, 3.
Their father and another sister,
Dorothy, 14, were badly burned while
a brother escaped from the flamm-
ing wooden structure by leaping from
a second floor window. The mother
also escaped unhurt.
The cause of the fire was not im-

CIVIL WAR FLARES UP ON CHINA FRONT AGAIN

(International News Service)
Civil war is raging upon two wide-

New Castle hospital.
The baby was severely burned all
over her entire body. From what
could be learned the father had come
home from work and was getting
ready to wash. He set the pan of
water on the floor and the child ac-
cidentally fell into it.
Coroner J. P. Caldwell was called
and investigated the case. Funeral
services will be held from the home

NEW YORK, March 27.—John D.
Rockefeller, Jr., the world's richest
young man, today appeared as a po-
tential candidate for the commis-
sion which President Hoover will se-
lect for the study of law enforcement.
Rockefeller displayed great inter-
est on his return from abroad when
told by International News Service
during an interview of President
Hoover's plans for a law enforcement
inquiry committee.

"I can't think of anything more im-
portant than that," said Rockefeller.
"It is admirable."
America's junior croesus did not
record himself as to whether he
would accept such a post if offered to
him.

However, Rockefeller's views on the
prohibition enforcement question are
well known. Several years ago he
was one of the prominent members
of a citizen's committee for law en-
forcement.

"This committee has not functioned
for some time," he said.
"What do you think of the Jones
enforcement law with its added pen-
alties for violation of the prohibition
act?" he was asked.

The millionaire evaded the ques-
tion.
"I hardly think I shall have any
trouble with the Jones law," he said
with a smile.
He also declined to comment on the

Blame Pilot In Crash Of Plane

Voluminous Report Is Made
On Plane Crash Taking
Toll Of 14 Lives

(BULLETIN)

NEWARK, N. J., March 27.—The
plane crash in Newark which took
14 lives was caused by the failure
of one engine, improper piloting after
the engine failure and failure of the
owners of the plane thoroughly to
familiarize the pilot with the country
surrounding the airport, according to
a report made today by Lieut. Rich-
ard Aldworth, manager of the Newark
Airport.

Lou Fouts, the pilot of the ill-fated
plane, and the sole survivor is in a
critical condition in the hospital.
The report covers 70 pages and in-
cludes considerable expert testimony.

clubs seem to itch for the feel of the

the club, and the golfer is leaning
to step out again, the scratch man,

PA NEWC OBSERVES

A troupe often of a dozen girls
must have "enjoyed" a slumber
party last night at some north hill home,
in the vicinity of Laurel avenue.
When the car on which Pa Newc was
coming downtown this morning,
reached the Highland school, the
troupe of girls boarded the car. Each
was carrying a jonquil, and a party
favor, so by the process of mental
deduction, Pa Newc reasoned they
were coming from a party.

Apparently the interference with
radio reception here, that has been
noted for several nights, had not as
yet been cleared up last night. It
was plainly evident at The News.

Boyles field was certainly a centre
of boy's activities yesterday. Large
numbers of lads were congregated
there, some of them flying kites, some
playing marbles, others on bicycles
and some others just engaged in "so-
cial chat." As the city builds up and
develops, the need of such play-
grounds as Boyles field is seen. Lads
who want to fly their kites today,
have a hard time finding a suitable
place, except in some public play-
ground like Boyles field.

trip this spring? Tell Pa Newc about it.

George F. Winter, president, and
treasurer of The Winter Company,
was living with an uncle at Youngs-

time before he had been employed in

ship that he was born and raised.
After spending several months in
New York state, he returned to this
district and entered the tailoring

of business there, he came to this
city and joined his brother in the
clothing business. That was the in-
ception of Winter Bros.
The name of the store was changed

changed in name alone. Since that
year Mr. Winter has occupied his

Oil Sessions Are Adjourned

American Petroleum Institute
Meetings Are Adjourned
In Houston Texas
Today

NEW YORK, March 27.—The meeting of the American Petroleum Institute whose directors are considering matters of importance to the oil industry adjourned until this afternoon.

R. C. Holmes, of Texas, president of the Texas corporation, and general chairman of the committee on world production and consumption of petroleum and its products, made a statement on the program of the committee.

Holmes emphasized the necessity of putting in effect without delay whatever steps toward conservation of oil production which can be accomplished by cooperation without violation of the law.

Holmes stated that the Regional committees, which in Houston were requested to report to the general committee whether or not the production in their respective regions could be brought to the 1928 average, have all reported that in their judgment this can be accomplished.

The committee recommended to the directors of the American Petroleum Institute that any plan of action to be taken be submitted to the federal oil conservation board for its approval and if approved by this board that state authorities in the principal oil producing sections be advised of the proposed action.

Sir Henri Deterding, managing director of the Royal Dutch Shell oil group arrived from abroad to attend the meeting. He said that oil conservation is without question the big issue confronting petroleum companies today.

Washington street curb lighting system to be refreshed and cleaned. The city should look its best by Easter Sunday.

George Fox is authority for the statement that the frost of last night was a welcome one. "It will keep vegetation development back a bit. Things are coming on too fast, too early in the season," he opines.

No announcement has as yet been made at the Y. M. C. A., as to the successor to Walter Kirker, as physical director. Mr. Kirker concludes his duties this week.

New Castle's stock market centre was the scene of quite a lot of interest yesterday as prices on many of the stocks were skidding. More New Castle and Lawrence County folks are "playing" the stock market now than ever in this district's history.

Spring house cleaning season is upon us. We have it on the authority of no less a personage than Harry K. Bell. Mr. Bell says that the time to beat rugs has arrived, and that window washing will probably be next on the program.

Time works some great changes. When an agent of the state pure food department dropped into the office of Pa Newc yesterday, he recognized him as none other than a physical director at Westminster college some twenty years ago.

The flag at the Post Office and the one at the Legion home, which had been at half mast since the death of

Marshal Foch of France, were run up to the top of the staffs today. Marshal Foch was buried yesterday.

There was quite a heavy frost noticed this morning in New Castle. However, no damage was done to early fruit or other vegetation.

Top coats were in order this morning. The atmosphere was quite chilly. It warmed up nicely during the day however, and those who wore their overcoats, felt quite uncomfortable.

Pity the poor policemen these days. They are still wearing their heavy overcoats and when Old Sol gets busy, they have quite a burden to carry around with them.

And while this little cleaning job is in progress, it would not be a bad idea if new electric light bulbs be placed in the various curb lights and help brighten up the streets of the city.

It is announced at the New Castle post office that a new price list for printed and unprinted stamped envelopes has been issued by the department, effective April 1. For the convenience of those desiring to know what changes have been made, a poster showing the new prices has been placed in the hallway of the post office here. There merchants or others may learn of the changes.

A Red Cross field representative is coming to New Castle on Thursday to conduct a training course and give examinations to swimmers who represent the local chapter. Any New Castle swimming enthusiast, who feels he can qualify for such an examination, should get in touch with the chapter office at once.

According to announcement made Tuesday, another new church building is now being contemplated. This time the Pentecostal Tabernacle is the congregation in question. It is learned that the membership expects to build a new house of worship to replace the one which is now being used.

Gratifying indeed is the announcement of the election of Coach John Lawther as tutor for the Westminster floorman for another year. During the three years that Lawther has occupied this position the nearby college has advanced notably in the realm of athletics, especially in basketball. What's more, those interested in Westminster can look for continued success as long as Lawther remains.

New Castle clothing stores appear to be doing a flourishing business now as the last minute rush for Easter togs.

Erie is putting into effect a drastic building code. It is even more extensive than the building code recently adopted in New Castle. The code is not really in effect here, because of the fact that the building inspector has not been named.

Remember that it isn't going to help the situation any to clean up your premises this spring and dump the refuse out into the street or in a public alley.

Not being a success, or anything, we can only say obscurely and gratefully that we can tell our favorite brand of hot corn dogger blindfolded. —Louisville Times.

dence to the grand jury and let that body come to its own decision.

The most vital question is, is it the legal aspect of the raid—whether De King was acting within his rights when with a pistol in each hand, he undertook to drive the raiders from his premises. They had a search warrant but whether they displayed it is in dispute. Also two questions have arisen as to the warrant itself.

John Doe Warrant.

It was a John Doe warrant issued by Magistrate J. Weber on the strength of an affidavit by Floyd Fairchild, state's attorney's investigator. Fairchild described the purchase of one pint of liquor March 16.

In Fairchild's affidavit the premises to be searched were described as "a two-story house" and the location given was, in a general way, the De King home. De King's house however, is not a two-story but a story-and-a-half structure.

The second and perhaps more important question in connection with the warrant was raised by Attorney Milroy.

"That warrant was used twice," he declared. "The raiders made two visits to my client's home. If the warrant was good for the first raid it certainly was not good for the second. If a warrant could be used thus without a single warrant would enable an officer to bound a man indefinitely."

Magistrate Weber himself admitted that Milroy was right in his contention that a warrant cannot be used twice.

FEDERAL RESERVE BOARD IN SESSION

(Continued From Page One)

speculators and can hold this weapon continually over what is considered excessive speculation.

Situation Delicate.

With this situation established, the board might be in a position to create an easier money market without the danger of another unprecedented demand for speculative cash. Experiences of the past, however, show that the financial machine is a delicate balanced mechanism and that upward or downward tendencies, once launched, are difficult to stop.

The board hopes to see the credit situation well in hand before the end of March. It was pointed out that business is beginning to feel the pinch of higher priced money. The demand for commercial money is increasing, according to reserve board reports. The country is believed to be facing another year of prosperity, barring excessive interest rates.

Officials declared that the board has no thought of seeking to regulate stock prices and is concerned with values and speculation only so far as these activities force money rates to attractive figures that act as a magnet for funds from all over the country, cutting down the supply of commercial cash and forcing interest rates higher.

STIMSON FACING MANY PROBLEMS

(Continued From Page One)

"I'm Alone" 200 miles at sea by rum-chasing coast guard cutters.

Half a dozen problems faced him from Europe as he surveyed his desk—the forthcoming arms conference, reparations, the still unrattled Franco-American debt settlement, and the world court being among the most important.

Must Reorganize.

Out and beyond this imposing galaxy of vexing problems, there confronted him at home the not inconsiderable task of reorganizing the diplomatic service which President Hoover has not cared to undertake until he could consult his premier.

Important changes in the ambassadorships abroad are impending, besides the scores of minor shifts that are always incident to changes at the top.

New ambassadors are to be selected soon for Great Britain and France, and two premier diplomatic posts in the American service. Ambassadors Alanson B. Houghton, at St. James, and Ambassador Myron T. Herrick at Paris, have both submitted their resignations, and it is the understanding that both are to be accepted.

Gibson May Go to Paris.

Hugh S. Gibson, now ambassador to Belgium, probably will be sent to Paris when Herrick relinquishes his post. Gibson has seen much European service, he is familiar as probably no other American with the rep-

utations and disarmament problems, having served as observer or delegate to every major conference on these subjects in the last five or six years.

President Hoover wants somebody in Paris who has the experience and background of knowledge to deal with them. Incidentally, Gibson will be the first career diplomat to be sent to the Paris post. It has always been regarded as a diplomatic plum and usually has gone to pay political obligation.

The ambassadorship to Great Britain is regarded the first post in the American diplomatic service. The two names most frequently heard in Washington for this post are ex-Vice President Charles G. Dawes and Henry M. Robinson, the California banker, who is not only one of Mr. Hoover's closest advisers, but also an economist of world-wide reputation.

Butler Woman Seeks \$30,000 From Estate Of Deceased Lover

(International News Service)

PITTSBURGH, March 27.—A supreme court decision which will establish a precedent in Pennsylvania is being awaited today with interest by many others than the principals, William M. Fairman, now deceased, and Mrs. Olive Campbell, 47, of Butler.

The decision will determine whether a 47-year-old widow's hesant "yes" to the insistent proposal of an 89-year-old widower is legally worth \$30,000. The principals, Fairman, 89, of Punxsutawney, Pa., a prominent lawyer and Democratic leader, and Mrs. Campbell, a widow with three sons, are said to have made a note for \$30,000 just prior to Fairman's death. The note was made to the widow, it is claimed, and she entered suit to collect upon it in the Jefferson county common pleas court. Mary Jefferson, executrix of the Fairman estate, was named defendant. Judge William T. Darr returned a negative answer and Mrs. Campbell filed an appeal, which was argued before the supreme court when it sat here last week.

Mrs. Campbell claims that Fairman asked her to marry him, telling her he did not depend upon his earnings to support him. She refused him because of his age. Later it is alleged Fairman promised to give her \$30,000 in bonds in the bank if she would promise to marry him. She then promised to wed the aged widower and he gave her a note reading "When I have passed out of this life, I give and direct that \$30,000 worth of my bonds now deposited in the Punxsutawney National Bank be given to Mrs. Olive Campbell," according to the record.

SCHIEDMANTLE-REED WEDDING, SOLEMNIZED BY MISS HELEN L. BODY WEDS GEORGE COCHRAN

A pretty wedding was solemnized Tuesday morning at 11:30 o'clock, in the home of Mr. and Mrs. L. H. Schiedmantle, of Moravia, when the bride of John C. Reed, son of Mr. and Mrs. L. M. Reed of the old Pittsburgh road, Dr. F. A. Childs officiated with the ring ceremony.

The bride was attractive in a gown of blue georgette and carried a large bouquet. She was attended by her sister Miss Viola Schiedmantle, and Floyd Geiger of this city, served as best man.

A wedding breakfast supplemented the ceremony, with covers laid for 14 guests.

Mrs. Reed is a graduate of the New Castle Business College and has been employed with the Marvin Electric Company.

Mrs. Reed is foreman of the Municipal Golf Course.

After a short wedding trip they will be home to their friends in their newly furnished home on the old Pittsburgh road.

County Federation Session In Wampum

The March meeting of the Lawrence
County Federation of Women's clubs
took place Tuesday in the First Pres-
byterian church of Wampum, with
members of the Wampum club acting
as hostesses.

The executive board met at 10:30
o'clock and committee reports were
heard. A request was made from the
Garden club that each club select an
annual for the fall flower show. The
flowers need not be the same as last
year's choice, and may be combined
with any other chosen flower for their
display at the show. The clubs are
asked to make their reports at the
April meeting.

It was voted that an invitation be
extended to all clubs and organiza-
tions in the county to the April meet-
ing and a resolution was made to en-
dorse the Booster club of New Castle.
Luncheon was served at 1 o'clock
and color tones of yellow and white
were carried out in the appointments
and menu. Covers were laid for 56.

The afternoon session was opened
with two vocal selections by Miss
Ruth Dwyer of this city, "Song of
the Robin" and "So Long Ago," ac-
companied by Miss Helen Ewing.
Miss Laura Redick, executive chair-
man of the Consumers League of

Pittsburgh, gave a most interesting
talk on the work and purpose of their
league. Miss Redick also paid a fine
tribute to the late Admiral Foch, tell-
ing of the ceremony at the grave of
the Unknown Soldier in 1921, which
she was privileged to witness.

Child Welfare and Its Importance
was the subject of Mrs. John Elliott
of Beaver, Pa., who strongly advocat-

the health of children.

A lovely vocal number, "A May
Morning," was rendered by Mrs. Frank
Huffman of the Wampum Women's
club, accompanied by Guy Davis.

The Honorable J. Howard Swick
was present and was well received
with his discourse on "Child Wel-
fare." He particularly warned against
untested milk for children. He also
congratulated the club women upon
their endeavors and accomplishments
since their privileges and advantages
have been broadened.

The Wampum club won the banner
for the highest percentage of attend-
ance, and Sorosis the second.

HATE IS ARTIFICIAL

FEW men are good, natural haters. The sentiment has to be artificially injected into them. Agitators after money or power whip up ignorance in one group against another group and produce hate.

But it doesn't last. It must be rekindled from time to time. Even in the case of our own Civil War, where the conflicting principles involved had been debated for decades; where all knew the issues, and after four years of devastating war, hate didn't last.

Give the common people all the facts and there will be no radical, group or national hatreds.

DAILY MIRACLES

PHILOSOPHERS, poets and several other classes falling somewhere between have said in their own manner that women are remarkable creatures. A really extraordinary accomplishment, one that defies analysis or explanation, is their capacity for physical change. It has been mentioned by the poets, but it has never had the serious consideration from science it deserves.

When a man shows an idiosyncrasy that enables him to look short and stout one week and tall and dark the next, he can command a huge salary from vaudeville or the circus museum. But this faculty is so common among women that it fails to attract even mild curiosity.

The fair sex wears its hair close-cropped and straight one day and on the next appears with hair falling in ringlets on the forehead and drawn into a cluster of curls at the back of the head. A man ordered to change his ordinary haircut so radically and suddenly would feel that it simply couldn't be done. Women, however, not only do not balk at the idea; they actually make the transformation.

A fashion dictate for this year was smaller and daintier feet. It sounds impossible. Hair does eventually grow. It can be curled, and "store hair" is always available. But feet are solid flesh and bone. How are women going to obey Dame Fashion's edict? It is not far from question nor to answer. His to wonder and admire, for if small feet are required women will have them.

Surely, the wonders performed by those masculine geniuses of invention are mere commonplace compared with the miracles femininity can work with her own personal appearance.

THE FINING SQUIRE IS STILL WITH US

THE Keystone Automobile Club's survey which reveals that there is still a widespread mulcting of motorists for costs and unrecorded fines collected by justices of the peace, aldermen and burgesses operating fining mills is a disquieting evidence that the state law has failed to wipe out this official banditry. There have been several successful drives against the fining squires of this state and its neighbors and the motor vehicle laws have been revised with the view of eliminating the practice.

What is needed now is clearly some form of summary prosecution against the officials who have persisted in this form of highway robbery.

The Keystone Automobile Club's survey indicated that a very small proportion of the 4300 minor magistrates in Pennsylvania are conducting their offices illicitly, and the careful examination of their books by state auditors undoubtedly has had a strong restraining influence. Nevertheless, the evil should be completely eliminated.

The motorist has the right to waive a magistrate's hearing and demand that his case be tried before a court of record, but this is no protection at all in most cases where the motorist is arrested far from his home and finds submission to a fine the easiest way out of the difficulty, even though he considers himself innocent of the charge. His only hope seems to lie in the state action for the punishment of those officials who are using their positions for illicit gain.

It is a curious fact that the commonwealth suffers as greatly as do the individual motorists, for fines are constantly being withheld from the treasury, a particular evasion of the law in this respect being the use of "disorderly conduct" charges against arraigned motorists. The fines in such cases are not returnable to Harrisburg, and it is estimated that more than \$600,000 was diverted last year by this means.

Nowadays it is not far from a wedding ring to a divorce mill. A shine may not be worth a dime, but it adds about eight cents to the price of an apple.

No doubt children of 1890 had "individuality," also. But the neighbors thought it cussedness.

Parents should be very careful not to let daughter catch them reading the awful books she buys.

18 Children in 9 Years.

Mussolini Won.

Why Telegraphers Struck.

By ARTHUR G. BRISBANE
(Copyright, 1929, King Features
Synd., Inc.)

Let ladies who feel they really "can't afford more than two children with everything so expensive" consider Frau Alfred Voelner, of Demmin, Germany. Twenty-eight years old, she has eighteen children, all under nine years of age. She had a boy in 1920, a girl in 1922 and four sets of quadruplets in 1923, 1925, 1927 and 1928. Sixteen children in four births. All are alive, ten boys, eight girls.

It was said here during the war that because conquerors no longer dragged women away into slavery, Germany would soon recover.

Frau Voelner confirms that. Mussolini, as you know, has built up a reliable organization with his Fascism and Iron will. Italy voted Monday for members of Parliament, the results were, for Mussolini, 3,395,576, and against him, 136,193.

Under Mussolini's plan, members are not elected to Parliament to represent different parts of the country's "geographical constituencies." The Italians elected 403 candidates, representing organizations and industries, and the nation as a whole.

The voter had to vote "Yes" for everybody on the ticket or "No." The ticket could not be split.

There may be a good idea there for the House of Representatives if they continue their progress.

In connection with the strike of telegraph operators in brokers' offices, based on the introduction of a machine for sending messages, Mr. John R. Thompson, president of the Chicago Federation of Labor, would like to know the operators object, not to use of machines which they accept as part of progress, but to the reduction of \$30 a week in their wages. Brokers' operators require special knowledge of prices, names of stocks and great accuracy. They were paid more than other telegraph operators. Those that install the new telegraphing machines say no special skill is required for their use, and demand that Wall Street operators accept ordinary telegraphers' pay. That is the cause of the strike.

If a machine changes skilled labor to unskilled labor, operators in the long run will have to accept the unskilled pay. But at this particular time, with brokers' profits and business unlimited, it does not seem necessary to reduce the pay of men that have devoted their lives to a special form of telegraphy, essential to the brokers' welfare.

Gen Calles, head of Mexico's national forces, sending 5,000 men to the south, says, "I am sending them to crush the Catholic revolution." In repeated messages he refers to the present Mexican war as the "Catholic revolution."

Representatives of the Catholic Church in the United States say the church has nothing to do with the revolution, which is carried on largely by "Mexican revolutionary soldiers hostile to the church."

The Mexican government apparently wishes Catholics to bear responsibility for the revolution.

Those that own stock in General Motors alone number 104,202. United States Steel has 168,000 stockholders, the American Telephone & Telegraph Company has 450,000 stockholders, largest list in the world. And so it goes with the big companies. They are actually NATIONALLY OWNED.

It is said that \$19,000,000 Americans are owners of stocks and interested in the value of stocks.

This will be remembered by President Hoover and by Secretary Mellon.

It is said that, if necessary, some great financial minds would not hesitate to produce a panic, and "shake out a lot of the little people."

That would not be popular with 19,000,000 stockholders and stock speculators.

Lady Astor, who went from Virginia to sit in the United States House of Commons, invited Rhodes scholars from the United States to dinner and gave them champagne, in accordance with custom, although she is a total abstainer. Temperance associations in Britain will not allow her to speak from their platforms.

To enjoy the favor of genuine drys, it is necessary to go all the way with them. No humoring of your guests, no pleading "custom."

Nowadays it is not far from a wedding ring to a divorce mill.

A shine may not be worth a dime, but it adds about eight cents to the price of an apple.

No doubt children of 1890 had "individuality," also. But the neighbors thought it cussedness.

Hints and Dints

Sun sets tonight 6:18. Sun rises tomorrow 6:52.

Its wonderful how far into the mud an automobile will go after one loses control of it on the hard road. It seems to go further upside down or on its side than on wheels.

A New York lawyer named Rhodes is fighting a law now before the Rhode Island legislature to test the constitutionality of the 18th amendment. Wonder if that chap is any kin of that formerly well known and still longed one named Three Star?

Police says a band on a man's finger holds him better than handcuffs. A band on a woman's finger does, also.

THE WORST MARYROOM IS TO LIVE WITH A MARTYR.

The only unhappy people I know are self-nude miserable. They go through life sulking because they can't have their own way about everything, and they are dripping with self-pity.

I know several women who have adopted the pose of martyrdom. They make little sacrifices that aren't at all necessary and burden themselves with tasks easily avoided—not because love prompts them, but because they wish to feel abused and enjoy feeling sorry for themselves.

If you would grow old gracefully don't try the new dances.

At a convention of loan company representatives held in Pittsburgh it was decided that wage earners who desired financial assistance in order to make down payments on new automobiles which are to be used for pleasure solely, would not be accommodated. This leaves the wage earners only one way to get a car and that is a used one. They only specified new cars where loans would not be given.

Before deciding which party to own, ascertain who owns the party.

Again we urge the people to make a garden this spring. Now is the time to plan it and there will be great joy in a garden no matter how small it is. Garden making is the real way to find out how really grand nature is. We are not interested in the sale of seeds or garden tools but are interested in you and ourselves when it comes to a garden.

SOCIOLOGICAL DISAPPOINTMENT.

A socialist I tried to be. The theory was fine. But no one gave his wealth to me while I was giving mine.

We heard a chap say the other day that before many years Sharon and Youngstown will build towards New Castle enough to reach us and then we would all be one big city. No doubt some birds will wait until that happens.

There are some pretty nice places in this world but the prettiest place in the whole world at some seasons of the year is right here in good old Pennsylvania. We have prettier flowers, finer farms and homes and in fact finer things than they have anywhere. Spring early summer and fall in this climate is the best in the world.

Are the Filipinos traitors when they ask when they are going to have an Independence Day?

We have received from our good old friend James B. Borland of the Franklin News-Herald a copy of the official program of the 40th anniversary of Franklin Lodge No. 130 B. P. O. E. "Jim" was one of the charter members of that lodge and is one of a few left of that number. It was a

great event in Franklin. We had an invitation to attend and surely would have been glad to mingle again with such firm friends as "Jim" Borland, Ex-Governor John K. Tener and some others we knew would be there. The program is a beautiful piece of work and very interesting to a member of the Elks lodge. Good thought, "Jim" just knew we would enjoy that program.

Figures are mighty interesting things. They show that unemployment was wide spread and that gasoline consumption increased 12.4 per cent in 1927—Nashville Banner.

There are two kinds of rich men in the world. One is the kind that makes and keeps all he gets and the other is the one who makes and gives much of what he gets. There is the kind that would give a lot more if they were not knocked so much by some bunbos who wouldn't give a starving baby a drink of water.

It begins to look as if the future war will be conducted on a cash basis and probably after all that will be one of the greatest factors preventing war.

WHY SCHOOL LET OUT EARLY.

The school teacher was expelling what to do in case of fire. The pupils listened with respectful silence until he came to his final instruction.

"Above all things," he said, "if your clothing catches fire remain cool."

The reason that some folks never wake up and find themselves rich is because they never wake up.

America is accused by Europe of being the great lawless nation in the world but Europe doesn't take into consideration the fact that we have more laws than all the rest of the world combined.

It is claimed that 41 percent of the individual wealth in this country is controlled by women. A lot of ladies who get small or perhaps no allowance at all might think this wrong.

Poor man. He pays his money to the women. Oh woe de doodle woe a couple of times!

As we understand it, loafing in England is called "unemployment," and the people are taxed to pay the loafers.

The secret to the prosperity of the farmer is to discover some method by which he may boost the price of wheat and at the same time reduce the price of flour.

It is a fact that one will not be able to find perpetual youth in the average American city, but at least one can safely avoid old age in those cities.

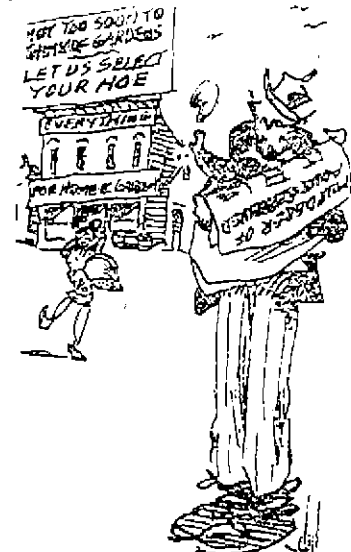

In reply to the constant complaint that money nowadays has no purchasing power, we would respectfully say: we are very positive that a \$2.00 bill will purchase almost a dollar's worth of commodities in quite a few stores.

So far the government has taken in one hundred and eleven million dollars more for income taxes for this year than it did last year. Somebody surely made more money.

It must be awful to die in Chicago and be a mere clut.

A chap who entered the publishing house of Harper Brothers 40 years ago as an errand boy was elected president of that concern last week. He did not get that advancement by standing around knocking everything in the world including his employers.

Well, anyhow we no longer have to place woman on a pedestal. She kin step up.

Newspapers Of Country Find Many Ramifications In Retirement Of Olvany As Chief Of Powerful City Organization

A sustained battle between the new and old Tammany is foreseen by the press in interpreting the resignation of George W. Olvany as chief of the New York Democratic organization.

Neither Tammany nor the Democratic party can afford to have the forces of Old Tammany regain control, the NEW YORK TIMES (Ind.) makes the statement. "Having put many excellent judges on the bench, detached itself from the police force, officially frowned on underworld gang and projected men like Smith, Follen, Wagner, McAvoy and Mahoney into the limelight, Tammany is being urged by its own members to keep on going forward. It may be that a combination will be effected which will represent the working organization. Everything depends on how strongly the leaders of the BOSTON DAILY GLOBE (Ind.) which sees a change in the boss problem, and suggests that it may be that the talents which used to raise their owners to a position of ex-political control are no longer being developed." THE BELLINGHAM HERALD (Ind. Rep.) believes that "the Tammany tiger has been curried, bartered and tailored to suit the times, but is a tiger down to the last stripe, and the test of leadership is now."

Referring to Olvany's failure to deliver enough votes to G. Smith to win the state in the national election, the SCRANTON TIMES (Dem.) adds that there is some talk, too, that Olvany's leadership has not sized up in other respects, that patronage grades were becoming too prevalent as well as too obvious for the good of the organization.

THE ITHACA JOURNAL-NEWS (Ind.) comments: "One wonders whether the change is a change in the spirit of the organization or merely the reflection of one influential personality whose public standards have been higher than those of most Tammany men. Not that it is a change in any circumstances, we shall go back to the days of Tweed. . . . But there is a real question, whether the attitude of Mr. Smith reflects a lasting change in the Democratic machine of New York."

"It is too early to envision what will develop for or within the Democratic party nationally in the near future," says the KNOXVILLE LEDGER-DISPATCH (Ind. Dem.) which thinks that "the leadership of Tammany Hall may be a turning point in its history."

THE CHAMBLESS EVENING POST (Ind. Dem.) offers its explanation of the present state: "Judge Olvany was bestowed on the organization by its governing body, but he had not won his way through the lower strata. He has given a very good administration, but he has not been accepted fully by the rank and file."

"An actual break-up of Tammany Hall on the score of the leadership is not so regarded as at all likely," according to THE WASHINGTON STAR (Ind.), which recalls that "there have been rows within the organization before, but not quite so grave as this for many years, indeed since the break-up of the Tweed ring more than half a century ago."

"As far as Olvany was concerned, he was a new type of leader," says the DAILY JOURNAL (Ind.). "He did his best to make Tammany respectable and he succeeded to a considerable degree. The old Tammany did not concern itself with trying to appear respectable. . . . The consensus is that Olvany would have been more successful as a loyal lieutenant."

The Way OF THE World
By GROVE PATTERSON

WAY OF THE WORLD. IN REACH OF LEARNING.

Don't mourn because you didn't go to college. We all live within daily reach of learning. Most of us are too mentally indolent to go to much of our minds. Anna Trump, our interpreter in Newark, Pa., has never studied languages in any school, but she speaks four languages besides her native tongue and is familiar with six more dialects. College isn't so important as application to the masses at hand.

HIGHER AND HIGHER.

Chrysler, motor millionaire, builds a structure 68 stories high running from one New York street to another. It is costing \$15,000,000. It will be the highest building on earth inhabited by man. What next and whither?

As soon as anybody builds a Biltmore alone comes somebody else and puts up a Trinitone. Unless we find out what we're doing, let us leave things what they are unless we learn what it's all about with these strange things that happen to us and destroy us.

WOMEN TO WORK.

In the recently celebrated National Business women's week attention was called to the fact that 9,000,000 women are doing business in practically every field. Whatever became of the unutilized good news? A nation need not be particularly proud because 9,000,000 women go to work outside the home every day. For many of them it is the best thing they could do; for others it is neither the thing they want to do or can do best. They are the victims of circumstances.

BETTER THAN FOOTBALL.

Ohio Western colleges have been on a 15-day tour of the northwest, meeting debating teams from other colleges. They have been discussing in well prepared, intelligent fashion, problems of real importance to the democracy. This is the kind of inter-collegiate relations that we ought to have a great deal more of. The interest in football and other college sports will take care of itself. The interest in exercise for the mind needs to be stimulated. It is a great day for any boy or girl when realization comes that sportsmanship of the mind is worth more than that of the hand.

Let's have mental early downs and more debate teams.

WORDS TO REMEMBER.

Urge U. S. And German Near East Co-operation

Berlin, March 27.—Co-operation
between the United States and Ger-
many in the Near East was urged by
Captain Rohde, well-known German
expert on Oriental questions in a lec-
ture before an assembly of Saxon in-
dustrialists.
"Formerly a more object of Brit-

ish policy in the Near East," Capt.
Rohde declared, "the United States
are now pursuing an energetic policy
of their own there. Thanks to the ef-
forts of the American press, America
has been able to establish a marked
political, financial and commercial
influence in the Near East."

Find Wet Moon Has No Effect On Farm Crops

By HARRY WARD
International News Service Staff
Correspondent
WASHINGTON, March 27.—Cur-
iously persistent are the various su-
perstitions relating to the effect of the
moon on the weather or on farm
crops.

One of the most unreasonable of
these beliefs, a federal weather bur-
eau expert said today, is that if the
horns of the new crescent moon tip
downward, it is a "wet" moon, portend-
ing rain.
As a matter of fact, this expert de-
clared, on any given date the position of
the crescent moon is always the
same in places having the same lati-
tude, so the same kind of weather
would necessarily prevail, were this
sign of any value, throughout a belt
of latitude extending around the
globe.

Equator Proof
Again, near the Equator, in a part
of the world notorious for its heavy
rainfall, the young moon is generally
in an almost horizontal position, or,
according to the proverb, it is almost
always a "dry" moon, he added.
If the moon could be viewed from
the North or South Pole, on the other
hand, its position would be, for the
superstitious, indicative of "wet" weath-
er, but these regions are character-
ized by so little rainfall and snow
that they rank among the arid parts
of the globe, the experts say.

Other superstitions relating to the
moon are those which offer guidance
in farm practice, such as sowing or
reaping, breeding or butchering,
shearing or shearing, or any other
farm activity supposed to be affected
by the "dark" or the "light" of the
moon. The scientist points out that
the chief things affecting the growth
of crops at any stage are:

Moon Innocent
Temperature of soil and air; com-
position of adjacent atmosphere;
kind and intensity of light; presence
or absence and severity of plant dis-
ease; mechanical condition of the
soil, loose or compact; fertility of the
soil, and quality of other vegetation
or weeds present.

The moon has nothing to do with
any of these conditions affecting
crops, the weather scientists declare.
It has no influence on weather or
soil. Even the light or the full moon
is not intense enough to have any
effect on plant growth or plant dis-
eases.

The chief good accomplished by
these old beliefs, the scientists say,
as embodied in rural lore, is through
the systematizing of farm work, fix-
ing a time for various activities, and
the force imparted to the frequently
necessary injunction "Do it now."

Bob Curwood, former New Castle
boy, now a Universal star, will be an
attraction at the Regent Theatre
Thursday and Friday of this week.
Mr. Curwood will appear in person
as well as on the screen and will be
pleased to meet his many friends, as
this is his first appearance to New
Castle in the form of a movie star
since leaving the city several years
ago. Mr. Curwood takes the part of
a daredevil cowboy in the picture
titled "Kidnapped," which is a special
feature during the showing of Monte
Blue in "The Greyhound Limited."
All those wishing to see "this big

INVITE FOUR RICHEST MEN TO HELP SOLVE FARM PROBLEM

(Continued From Page One)

capitalist: President William Green
of the American Federation of Labor
and other leaders in industry and
labor. All were urged to confer with
the senate committee at the earliest
opportunity.

The invitations were suggested by
Senator Thomas (R) of Idaho, and
heartily endorsed by other members
of the committee. Senator McNary
(R) of Oregon, chairman, forwarded
the invitations.

To Have Single Conference
If the financial and industrial
men had reached Washington, and the
next few days will be devoted to hard
czars accept, an effort will be made
to arrange a single conference which
all might attend. They would bring
the cream of the nation's financial,
economic and industrial ability. If
they could agree on a single remedy,
agriculture undoubtedly would be pro-
jected to its economic feet with amaz-
ing celerity.

There are several "but" to the pic-
ture. Some members of the senate
committee expressed doubt whether
the invited guests would come to
Washington to help congress draft a
farm bill. There was a feeling that,
while the economic czars recognized
the necessity for stabilizing agricul-
ture, they would feel the problem of
formulating relief was outside their
province.

One beneficial effect of the pro-
posed conference, whether or not they
accept their invitations, will be to
clear the atmosphere somewhat in
congressional circles. For the last
four years, congress has attempted
to enact the McNary-Haugen bill in-
law with the much discussed equal-
ization fee as its principal feature.

Philip P. Wells Expires In West

Man Known Here, Dies While
On Trip To San Francisco, California

Philip Patterson Wells, a resident of Middletown, Conn., died in a San Francisco hospital March 12 of meningitis, which developed while he was enroute to the Pacific coast by boat.

The deceased is survived by his wife, Eleanor Duncan Munger Wells, one son, Lewis C. Wells of the N. Y. Telephone company in Albany, and one daughter, Miss Elizabeth Wells of Ross, Cal.

Mr. Wells was born in Grand Rapids, Mich., February 5, 1868. He received his B. A. degree at Yale in 1893 and attended the graduate school of Yale where he studied economics and history, receiving his doctor's degree in 1900. He was graduated from Yale law school in 1892 and was admitted to the Connecticut bar in 1893. From 1896 to 1906 he was librarian of Yale law school and was instructor in the law school from 1893 to 1909.

He was a lecturer in history at Yale from 1902 to 1906. From 1903 to 1907 he was in the U. S. forest service as legal expert and was chief law officer from 1907 to 1910. From May 1, 1911, to March 31, 1913, he was chief law

officer of the U. S. reclamation service. He also acted as counsel for the National Conservation association and was a member of the American Political Science association and the Middlesex County Historical society.

Mr. Wells was an associate member of the Society of American Foresters and was president of the Connecticut Forestry association at one time. He was a member of the following clubs: Cosmos in Washington, Graduates and Etluis in New Haven.

The deceased was the author of papers on conservation of natural resources and on legal and bibliographical subjects in encyclopedias, and periodicals.

He was a joint author of "Annotated Titles of Books on English and American History" in 1903, and editor of "Literature of American History, Supplement," 1904; "Colonies of the World," by E. J. Paine (revised and in part rewritten), 1907; "South American," by Alfred Derber (translated from the French and edited), 1907. He was also editor of the "Young Folks Library" 1903 and the A. L. A. catalog of 1904.

Mr. Wells was an intimate friend and classmate at Yale of former Governor Gifford S. Pinchot of Pennsylvania and for a time served as his personal advisor, holding the office of deputy attorney general of the state of Pennsylvania.

Mr. Wells maintained his residence in the old Wetmore home on the Midway-Middletown road.

While counsel for the National Conservation association he constantly advocated legislation for the protection

of the public interests in water power, forest, minerals and public lands. He aided in drafting the federal water power and mineral leasing laws, and the bill introduced by Senator Capper of Kansas to put an end to forest devastation and to compel the substitution of conservative in place of destructive methods of lumbering.

Mr. Wells was a brother of Chauncy Wetmore Wells, who was on the staff of The News in 1892-93 and who is now professor of English literature in the University of California. He was also a cousin of Allene Wetmore Treadwell, vice president of The News company.

Judge Chambers Refuses Appeal For New Trial

Hands Down Decision In Mercer County Court Case
This Morning

(Special To The News)
MERCER, March 27.—Judge James A. Chambers of the Lawrence county court, who assisted in the October term of court in Mercer county, handed down a decision this morning, in which the petition for a new trial for Floyd Gilliland of Wilmington township, is refused.

Judge Chambers heard the case in October. Gilliland was found guilty on a charge of rape. Immediately an appeal was filed for a new trial. The decision handed down today disposes of the appeal.

Druggist Hay Is Refused Admission To The Workhouse

BUTLER, Pa., March 27.—Marion R. Hay, Butler druggist, formerly of New Castle, convicted on charges of selling a tonic that contained an illegal percentage of alcohol, was in the Butler county jail today awaiting action of Judge James M. Galbreath in his case. When the verdict was returned, Mr. Hay asked Judge Galbreath for a delay in beginning his workhouse term of nine months, giving him time to have a physical examination. This examination was made by Dr. W. J. Grossman, county physician, who found no condition that would prevent the convicted man from beginning sentence.

Officials in charge of the Allegheny county workhouse at Springdale refused to admit Hay to the institution when he was presented by Butler county jail officers yesterday, and the prisoner was placed in the county jail.

The Butler druggist was sentenced to pay a fine of \$200 and costs and serve nine months in the workhouse, with the provision that Judge Galbreath would entertain a motion to grant a parole after six months if fine and costs are paid.

SHE NEVER WASHES DISHES
...with two maids to do all the
work, of course her hands are
lovely and white and smooth.

Which are the hands of the rich man's wife?

SHE WASHES DISHES
3 times a day—yet her
hands are as lovely as
the hands of a woman
of leisure. Read the
secret below—

305 Famous Beauty Shops say—

"We actually cannot distinguish
between the hands of a woman
of leisure and wealth—with servants
to do all her work—and the hands of
a woman who uses Lux in her dishpan.
... Lux gives real beauty care."

What a marvelous suggestion for all
busy women—

"Beauty care" right in the dishpan!

And how true it is! After washing
dishes with Lux your hands do look
smoother and whiter and lovelier than
before! Every minute they're in the
gentle, sparkling Lux suds they're re-
ceiving glorious beauty care!

For Lux is different from ordinary
soaps... so utterly pure, so bland, that
it protects the precious beauty oils of the
skin—the youth oils—keeping the hands

young and lovely. Many soaps dry up
these oils, giving the skin that drawn,
crisscross-lined look—making the
hands seem work-worn and old.

Begin using Lux in the dishpan today!
Give your hands the wisest, most in-

PETER'S ADVENTURES IN ANIMAL LAND

"ALL SAFE" WITH THE FLOCK
FROM THE FROZEN NORTH
Drake stared up for a moment.
Then he quacked with joy.

"Thank goodness, at last the folks
are coming!" cried he. "That is the
herald that we see, and look—after
him are following the flock just as
fast as they can fly."

Sure enough, out of the far off no-
where other specks appeared in the
sky, and before long they turned into
great black birds. Soon the herald
had come to the edge of the pond,
and what a noise he was making.

"Whish, whish, whish!"
How did he do it, Peter did not
know—perhaps with his wings—but
Drake must have recognized the
sound as a signal, for right away he
started to make the same strange
noise.

"My family are all safe," cried
Drake in an aside to the boy, in-
terpreting what the herald was tell-
ing him.

"One of the children had a bit of
trouble with his wing on the way
but got over it all right! The north-
ern waters are freezing! The flock
have not had a square meal in a
day! Food has been scarce along
the route. My family are anxious to
lose no time in getting to the mussel
beds. A storm is following close upon
their tails!"

"But why don't your friend come
down?" interrupted the boy at least,
after Drake and the herald had spent
a lot of time in wiggling. I should

think you could talk things over
better face to face."

"So we can," answered Drake,
and that is exactly what we are
going to do, only I am going up
where he is instead of him coming
down to me. If he left the air the
rest of the flock would think that
harm had come to him and would
fly away from this spot.

"Listen! Hear!" herald giving the
"All Safe" signal.

"Whish! Whish!"
Low but strong came the same
sound that Peter had heard before,
and every single duck in the flock
knew quite as well as Drake just
exactly what that signal meant.

It was fun to watch the birds hur-
rying up. They pushed and shoved
and bumped into each other, and
some of those in the rear rose higher
and flew over those in front of them;
every duck was determined to be the
first to greet Drake now that the
herald had given the safety signal.

Next: "A Reunited Family."

Alleged Leader Of Liquor Ring Surrenders Self

Albert H. Scales, Sought In
Inter-State Liquor Con-
spiracy Held Under
Bond

ARCHIE NEGLEMAN
IS BEING HUNTED

Former Pennington Agent De-
cides To Give Self Up;
Twenty Warrants
Issued

(International News Service)
PITTSBURGH, March 27.—Albert
H. Scales of Monessen, long sought as
one of the ring leaders of the alleged
inter-state rum ring conspiracy by the
federal government, surprised officers
by surrendering himself at the U. S.
marshal's office, and today is at lib-
erty again under \$3,000 bond for his
appearance before the trial court.

The trials for the members of the
alleged ring have been tentatively set
for the week of April 22.
For several weeks since Prohibition
Administrator John D. Pennington
"broke" the case, federal officers have
been seeking Scales and Archie Negle-
man among others. The government
alleges Scales and Negleman to have
been the leaders of the rum ring
which operated in Pennsylvania and
West Virginia.

Mrs. Scales told officers that her
husband was seeking Negleman. When
Scales appeared late yesterday, he in-
formed the federal authorities that
he had traveled more than 6,000 miles
by automobile in his search for the
missing man. Both are former agents
of Pennington's department.
Bond warrants have been issued
for the 20 persons named in three
indictments returned by the federal
grand jury sitting at Erie last week.
All must renew their bonds which
were posted when first apprehended
and before the indictments were re-
turned.

CREDIT MANAGER MAKES ADDRESS

Ray Hall, Director Of Local Ex-
change, Speaks To Kiwanis
Club On Credits

Ray Hall, manager of New Castle's
Credit Exchange, delivered an ad-
dress on "Credits" at the meeting of
the New Castle Kiwanis Club at noon
today. Mr. Hall spoke in the ab-
sence of Fred Koon, banjo soloist
and teacher in Cleveland, who was
unable to reach the city in time for
his performance at the meeting.

Mr. Hall's remarks dwelt upon the
three basis of credit, character, ca-
pacity and capital. He declared that
of the three, character is foremost
in importance.

He cited the practices of the "skits"
of long ago who would purchase a
considerable amount of goods or
something on credit and then steal
away to take up residence where they
could not be found. He said that this
very thing is considerably reduced to-
day, due to the operations of the bu-
reaus known as credit exchange. It
is a national organization and each
co-operates with the others to fur-
ther the protection of credit.

According to Mr. Hall, the credit
exchange will soon put in operation
a new system for the running down
of modern day "skits" who have been
shirking their financial obligations.
With 1,000 credit exchange bureaus
working together it is believed that
this operation of the "skits" will be
greatly reduced.

Several selections were rendered by
the Kiwanis quartet prior to the ad-
dress of Mr. Hall.

Cathedral Project Discussed Tuesday

Details of the proposed re-financing
plan of the Cathedral, were discussed
at a meeting held last evening in the
Cathedral, prior to presenting the
matter to a committee of representa-
tives from The New Castle Consistory
and associate bodies at a dinner this
evening.

Those in attendance were S. Reed
Megown, chairman, John Lockhart,
Howard Richards, Fred L. Rentz,
Frank A. Schultz, Robert Tully, Mur-
row D. Wells and William Bell.

Tonight's meeting will be attended
by 120 representatives of the Cathed-
ral Association, and associate bodies
from all over Western Pennsylvania.

Gets Information For Tourists Abroad

Bernard C. Hanlon, secretary of the
New Castle Motor club, stated today
that he had received a copy of "Tour-
ists Abroad," the 1929 edition put out
by the American Automobile Associa-
tion for the benefit of tourists who
expect to spend the summer in Euro-
pean countries.

It gives a review of foreign service
available through the medium of the
Foreign Travel Division of the Na-
tional Headquarters and contains
valuable information.

Additional copies of this booklet can
be obtained through Mr. Hanlon by
any who expect to spend the summer
in a tour of Europe.

McKenzie Store Is Entered And Robbed

James McKenzie, 701 East Lutton
street, on his return home last night
about 11:45 o'clock reported to the
police that his store at that address
had been entered and robbed. De-
tective C. G. Logan and Officer
Dukes answered this call and inves-
tigated. Further investigation was

made today by Detective John Young
and Officer Lynch.

It was found that entrance was ef-
fected by tearing a screen from a cul-
ler window and breaking the glass.
There was a cross dog in the cellar,
but evidently the thieves knew the
dog, for they went on up into the
store.

Some cigars, tobacco, candy, chew-
ing gum and \$6 in small change were
taken.

THREE DRUNKS

Three drunks were members of the
police court class of the past 24
hours. Two paid fines of \$5 and one

is still being held at the police sta-
tion pending his recovery from an
overdose of moonshine.

ROBBERY CLEARED UP

Theft of some valuable tools from
the cement block plant of Morrison
and English was cleared up Tuesday
by the arrest of Albert Minter and
Edward Kline by Detective John
Young and Officer Lynch. Some of
the tools were recovered at a pawn-
shop. Minter was allowed to go un-
der suspended sentence and Kline
was discharged.

CRUELTY IS CHARGED

In Divorce Case

Mrs. Frances Picato has filed an
application in court for divorce from
David Picato, on the grounds of cruel
and barbarous treatment. They were
married in February, 1918 and lived
together until March, 1928. It is
claimed by Mrs. Picato that her hus-
band used vile and abusive language

toward her and that he threatened
to take her life.

Mrs. Bertha Marie Furry has filed
an application for divorce from her
husband, Clarence Furry on the
grounds of desertion and adultery.
They were married in September,
1927 and only lived together until No-
vember of the same year.

Game Commission To Study Deer In State

Many Animals Unable To Survive Winter Because Of Malnutrition

Find Little Is Known Of Habits And Activities of Native Specimens

At the offices of the Game Commission in Harrisburg last week an important conference was held which will lead to a state-wide, detailed study of the White-tailed Deer in Pennsylvania.

With representatives of the United States Biological Survey, the Pennsylvania State College, the Bureau of Animal Industry of the State Department of Agriculture, Bucknell University and other institutions present, several hours were devoted to a careful consideration of the Pennsylvania deer herd and its problems.

The nine Division Supervisors of the Game Commission attended and reported on conditions in their districts. W. Clair Kelly, Division Supervisor from Clearfield County, reported on the recent alarming mortality of deer in his section, stating that to date he had personally examined over 240 specimens. Following Mr. Kelly's statements as to food supply, the depth of the snow, and methods he had employed in attempting to feed the deer, the discussion was continued by Vernon Bailey of the Bureau of Biological Survey, who carefully outlined the situation as he had found it in Clearfield County during his recent investigations. Mr.

Bailey is convinced that the deer of Clearfield County have been dying of starvation, or malnutrition, a word which according to those present at the conference may be better understood by the general public. Stomachs of these animals held a good deal of material but it is felt that this material contained little of food value and that, therefore, the animals were perishing from lack of nourishment.

An interesting discussion of the situation at the Kaibab Forest was fully discussed by Major E. A. Goldman of the Biological Survey, who in his capacity as Deputy in charge of Federal Refuges, had made a careful study of the situation there. Dr. W. B. Bell, in charge of Field Research for the Biological Survey, called attention to the foot-and-mouth disease epidemic in California which necessitated the killing of invaluable live stock and the slaughtering of over 22,000 deer.

It was brought out that very little is known concerning the food habits, the breeding period, period of gestation and other vital activities of the deer and it was agreed by all that a careful, well-directed study of the animals should be undertaken during the coming months.

Professor Norman Stewart of Bucknell University, Lewisburg, discussed nasal myxias among deer, as he has observed it in some specimens which he has examined. Professor Stewart is eager to carry on his study and hopes to find additional specimens which have in their nasal passages the larval stage of the parasitic fly which induces this disease.

The Game Commission is determined to make accurate studies of the deer and field men have already been directed to cooperate to the full-

est possible extent in forwarding specimens to Harrisburg or to other points where they are to be studied. Announcements will be made shortly of an Advisory Committee, composed of nationally known naturalists which will work with the Game Commission in studying this problem. The fact that the United States Government has been so actively interested indicates that the problem is of national-wide interest.

Those attending the conference were: Dr. W. B. Bell, Major E. A. Goldman and Mr. Vernon Bailey of the Biological Survey, Washington, D. C.; Dr. R. L. Watts, Prof. R. D. Anthony and Prof. McIntyre of the Pennsylvania State College; Prof. Norman H. Stewart of Bucknell University, Lewisburg, and two of his student assistants; Dr. M. F. Barnes and Dr. A. L. Bruckner of the Bureau of Animal Industry; Pennsylvania Department of Agriculture; Mr. G. H. Wirt and Mr. Roland of the Department of Forests and Waters; Game Commissioners Ross L. Leffler, Adolf Muller and Francis H. Coffin; Dr. Winecoff of Scranton, a naturalist who has studied conditions throughout the continent; the five Bureau Chiefs, nine Division Supervisors and the Trapping Instructor of the Game Commission. John J. Slaughterback, Executive Secretary of the Commission, and Dr. George M. Sutton, Chief of the Bureau of Research and Information were in charge of the conference.

Meyer Gerson, the judge maker, was standing on the pavement in front of his Broadway shop on the other balmy afternoon. Business was dull. Suddenly two distinguished looking fellows entered. "What say, captain, to a nut sundae?" said one.

"All right, colonel," said the other. "I think I'll have a sandwich, too."

Mr. Gerson was thrilled. No waitress was good enough to wait on these patrons. He decided to do it himself, and after taking their orders, went to the chef and personally instructed the making of them. After serving the men, Gerson paused to hear them chat.

"I tell you, colonel," said one of them, "you get all the breaks. Now if I had the right aise my tips would be good, too!"

Red Cross Cares For Ten Disasters

Relief Being Administered To States Affected By Recent Floods

Reports of progress made by the American Red Cross this month show that relief is being administered to 10 disasters in the United States at the present time. One of these is the destructive floods which this month swept over the sections of Georgia, Alabama and Florida. Most of the disasters for which the Red Cross is concentrating effort at the present time occurred some months ago, but reconstruction work for the sufferers is still under way. Pennsylvania is not included in the list of states where disasters have occurred.

Youth In Brittany Are Becoming Radicals

(International News Service) PARIS, March 27.—Now comes Brittany, along with Alsace, as the field for an autonomist movement.

It is reported that discontent among radically-minded youths in Brittany has cropped out for the first time since the French Revolution. Young writers are blamed for inciting the movement by continual assertions that Brittany has not been accorded the prestige it deserves for sacrifices made during the war and its pre-eminence as the center of the fisheries, large agricultural regions and numerous summer resorts.

Drastic Steps To Be Taken Against Unwholesome Food

Storekeepers Must Protect Products From Contamination Of All Kinds

Food products displayed on streets and in stores unprotected from dust, flies, mice, rats, cats, dogs and other sources of contamination, are clearly in violation of the pure food laws and persons responsible are subject to prosecution, states Dr. James W. Kellogg, director of the Bureau of Foods and Chemistry, Pennsylvania Department of Agriculture.

"The General Food Law defines as being adulterated any food or ingredient entering into the composition of foods, which is kept in a way or manner that would render the article diseased, contaminated, or unwholesome," the Director explains in a statement issued here today. "This

means that any operator of a restaurant, bakery or retail store, who permits the storage and handling of foods in such a manner that the foods would become contaminated from filth and vermin, is plainly violating the law.

"Many foods manufactured in a clean and sanitary way are rendered unfit and often dangerous for consumption when they are kept or stored in filthy storage and dispensing places. Therefore, foods displayed on streets and in stores unprotected from dust, rats, cats, dogs and from other sources of contamination are clearly in violation of the requirements. Persons failing to prevent such conditions will be held responsible.

"The unsanitary manner in which foods are kept in certain classes of food-dispensing places is being given special attention by the food agents, who are directed to warn all persons against such unlawful practices and to take prompt action to protect the public health. Convictions will result in fines of from \$50 to \$100.

"The public is entitled to wholesome clean foods and the Department's duty is to require full compliance with this specific provision of the Food Law."

She needs the car too...

SAID a woman who lives in a suburb: "I look forward to week-ends, just as much as my husband does. But when Saturday comes, I send him off in the car for golf or fishing or something else that he likes. He thinks that I've been enjoying the car the other days of the week—but have I?"

"My weekday use of the car is just like the use of any other tool of home-keeping. It's all business. In the morning I take my husband to work and meet him at night. In between I have to take the children to school, bring them home, go to market, go on the endless errands that it takes to run a home efficiently.

"But the fun of sitting behind a wheel and saying to myself: 'Now I'm going to take a drive for the joy of driving—to rest my nerves and smell the country'... that's what I'd like to do on Saturday."

Though the automobile has become a necessity of modern life, it is still a luxury in the best sense of the word. There is a thrill in driving for pleasure alone—in going just where you want to go—that nothing else quite equals.

To all families who need a second car—we make this suggestion:

Marshal Foch's Body In Final Resting Place

(International News Service)
PARIS, March 27.—Marshal Ferdinand Foch, idol of France, lay enshrined beneath the gilded dome of the Invalides today, near the eternal resting place of Napoleon Bonaparte.

France said farewell to her hero in a magnificent and stirring series of ceremonies, unequalled in modern times for their glorious yet solemn pageantry.

The leading figures of ten nations joined with France's distinguished to pay homage to the simple soul who led the Allies to victory, while mil-

lions of Frenchmen looked on in sorrow, and in pride.

After a simple but stirring funeral services in the Cathedral Notre Dame, the Marshal's body was borne to Les Invalides upon a caisson drawn by six horses.

In the impressive procession that followed were President Doumergue, Premier Poincaré and his entire cabinet, diplomatic officials of all nations, including Ambassador Myron Herrick of the United States, General John Pershing, the Prince of Wales, Prince Charles of Belgium, and leaders in every walk of life.

Three Prisoners Taken To Works

Will Serve Sentences Ranging From Three To Fifteen Months On Liquor Charges

August Yohn, J. C. Mabray and George Davis were taken to the Allegheny county workhouse by Deputy Sheriff Kenneth Musser and Cecil Suber today to begin their sentences on liquor charges.

Yohn is to serve 15 months, Mabray eight and Davis three. Yohn is a resident of Campbell Co., in whose behalf a safety director of that city sent a letter to Judges Hildebrand and Chambers in which he averred that Yohn was a good, law abiding citizen, and had never been in trouble at Campbell.

This was flatly contradicted by records which District Attorney J. Elder Bryan secured from the chief of police at Campbell in which it was shown that Yohn had been arrested several times in that city. Local judges considered the letter of the safety director one of the most willful misleading statements that had ever come to their attention, so they believe that the writer was fully aware of Yohn's record at Campbell.

Now King George is said to have acquired the habit of reading detective thrillers. And so, after all these years, Nick Carter and Old King Brady are being vindicated.

President Takes Playing Seriously

(International News Service)
BOSTON, March 27.—President Herbert Hoover plays as hard as he works.

So declared Paul R. Leach member of the Hoover campaign party in a copyrighted article appearing in the current issue of Youth's Companion.

"Herbert Hoover can work, concentrate, drive himself like a sorghum mill in third speed for 12, 14, 18 hours a day for weeks on end," wrote Leach.

"And then he can go into his play just as eagerly, motoring 12 hours at a stretch over mountain roads, whipping streams, afoot or the ocean depths from the stern of a boat, for more long days. I have seen him start for trout in California and I have seen him off in Florida for the keys and Angel Fish Creek for sail fish. His eagerness in getting away is unmatched."

The president is neither a technically trained man who thinks only of work nor the over-enthusiastic sportsman but like other great men his favorite recreation is fishing, said the writer. In wading streams and trying to hook a trout, a man finds solitude—he gets away from the jargon of our present day civilization—in the opinion of the president.

Leach said that the president ventured the opinion that "all men are equal before fishes" adding that there is peace in fishing. It is something that commands silence. Of course there is satisfaction in getting what you go after. I like to catch fish."

CONDITION OF DR. GREEN REPORTED FAVORABLE

The condition of Dr. C. C. Green, superintendent of New Castle schools, who underwent an operation in a Youngstown hospital Tuesday morning, was reported as very favorable today.

"I started taking Nujol internally seven years ago. The first month Nujol brought remarkable changes in my physical condition. My elimination became active and normal. Since that time I have taken Nujol about five nights a week. If I discover that I have taken an excess I stop its use for a couple of days, when I renew my daily practice of taking a swallow from the bottle before retiring. I have found during my seven years' experience with Nujol that it is not habit-forming, or in any way unpleasant or harmful."

Nujol contains no medicine or drugs. It is simply a pure natural substance (perfected by the Nujol Laboratories 26 Broadway, New York.) It not only keeps an excess of body poisons from forming (we all have them) but aids in their removal.

WEIGH WHAT YOU DESIRE

If you overweigh, the cause may not lie in over-eating or under-exercise. It may lie in a fault in nutrition which modern research has discovered. And which science now corrects.

The method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And many of the people you envy—with slender figures, new vivacity and health—will urge you to adopt this way.

The use of Marmola does not require abnormal exercise or diet. In every box you will find the formula, also the reasons for results. You will know just why your weight comes down and why every effort is helpful. Learn the facts, and do it now. Do so by asking your druggist today for a \$1 box of Marmola.

Girl's Sewing School To Observe Event On Saturday Afternoon At 2 O'clock

The regular Thursday evening Bible class will be held tomorrow evening at the City Rescue Mission with Frank Geiger teaching. This class has not been held for the past two weeks on account of special services being held at the mission. Many have attended this class from week to week. Mr. Geiger is a very competent teacher and everyone is invited to attend this class.

Friday evening Mrs. J. G. Comstock will bring the message and special music has already been arranged. The service this evening at the mission will be in charge of the superintendent, B. J. Watkins. Services begin at 7:30 each evening.

The girl's sewing school will observe exhibition day on Saturday March 30 from 2 to 3 o'clock. The work accomplished by the sewing school will be on exhibition at this time.

SEVENTH WARD NEWS

Men's Night This Evening At Revival In Mahoning M. E.

Fine Meetings In Ward; Other News Notes Of Seventh Ward

This evening the Men's Bible class of the Mahoning M. E. church taught by J. M. Yates will attend the revival service in the church in a body. To this service all men of the church and ward are especially invited. This is not just a men's meeting as the ladies are to come too.

There was an unusually fine service on Tuesday evening in the church. Rev. D. C. Schenck, pastor of the Mahoning Presbyterian church, was present and participated in the service by making the opening prayer. Rev. David Daye Sleppy pastor preached an inspiring sermon.

Special music was a feature of the service on Tuesday evening. Misses Mildred George and Sadie Lewis, evangelistic singers of the city having been present singing several numbers.

Two Bible classes of the Sunday school of the church attended the service. The McCoy Bible class taught by Mrs. A. T. Johnston and the Look-out class taught by Mrs. J. A. Waddell. Each class was well represented and occupied reserved sections.

The service this evening will be at 7:45. These special evangelistic services will come to a close on Sunday. There will be no service on Saturday evening.

C. H. U. M. CLUB

The C. H. U. M. club members will have a six o'clock dinner this evening at the Gables. Following the dinner they will have a theatre party.

CLASS TEAM ENTERTAINED
Honoring the 9A-2 boys basketball team of the Mahoning school, who are the champions of the inter-class league basketball of the school, there was a party for the class given by the 9A-2 girls at the home of Rose Maize on North Liberty street. Dancing, games and music were the pastimes of the evening. At a later hour dainty refreshments were served by the girls of the class.

Members of the class present: Misses Jane M. Zarilla, Viola Mosley, Mary E. Wilk, Rose Mattie, Cecelia Calvanese, Helen LaMarco, Rose Augustine, Byrle Evans, Evelyn McTaggart, Jennie Felice, boys: Rocco Tommelio, Lawrence Weaver, James Cumpelo, Joseph Mingine, Carl McGone, Anthony Lostracco, Arthur Llewellyn.

Final Pre-Easter Class On Friday

Final Class Of Series Of Pre-Easter Classes On Friday

The final pre-Easter class of the series will be held on Friday in the Madison avenue Christian church. During the past three weeks Rev. W. W. Sniff pastor of the Christian church has conducted a pre-Easter class each Friday. The fourth and last class of the series will be held Friday of this week.

These classes have been for children and young people of public school age. Rev. Sniff has had fine attendances at his special classes. The study for the sessions is the life of Christ leading up to the time of his death and resurrection. The classes are found very interesting and persons attending have been interested.

Junior Members Of Lyceum Club To Give Program

Thursday and Friday evenings, April 18 and 19, are the dates set for a play and variety show which will be given by the junior members of the Lyceum club of St. Margaret's parish.

The play to be presented is entitled "School Days". In addition to the short play there will be a variety program. Rehearsals for the program are under way.

Tuesday evening there was a rehearsal for the play at the home of Mr. and Mrs. William Basterfield on W. Madison avenue.

SELLING SEEDS
Mahoning school pupils are out this week selling garden seeds. This is another benefit for the library of Mahoning school.

Price Increases Aid Steel Industry

Iron Age Review Of Iron And Steel Market Is Most Optimistic

(International News Service)
PITTSBURGH, March 27. — The buoyant situation in the iron and steel industry is further assisted by the advance of 25 cents a ton for iron ore, forward commitments in finished steel and stiffening of northern pig iron prices, the Iron Age will say in its weekly summary of the iron and steel trade tomorrow.

The first change in price since 1925 and the first increase since 1923 were established in the advance of Lake Superior ore, in sales estimated at 1,000,000 tons. The increase of 25c a ton in ore creates about a 50c difference in the cost of making pig iron. This, including the already heavy bookings of the northern blast furnaces, give them a still further stronger market position, the Iron Age will declare.

A contrary situation exists in the south where the Virginia producer, influenced by the recent drop of \$1 a ton in Alabama iron, has reduced quotations 50c a ton.

While unfilled orders of independent

ent sheet mills show gains of more than 50,000 tons in February and on March 1, were nearly equal to 2 1/2 months' production, the finished steel business shows signs of subsiding, following heavy specifying against first quarter contracts.

A fair volume of second quarter business in bars, plates and shapes has been taken at advances, the Iron Age will say. How well prices on these contracts will hold awaits actual placing of shipping instructions. The tenuous situation in finished products is in Chicago where deliveries on bars and plates now extend beyond 10 weeks.

Steel production remains at practical capacity in the Chicago district, at 95 per cent in the greater Pittsburgh area and at high rates elsewhere. The average operations of Steel Corporation subsidiaries are estimated at 97 per cent.

In 1758 a man named Dubreuil built the first sugar mill on the Mississippi river, a short distance below New Orleans.

Secretary of War Calhoun in 1813, prohibited the use of liquor in the army.

People may respect a law without obeying it, but they won't obey a law without respecting it.

State Dog Law Is Rigidly Enforced

Conditions In Mercer County Are Found Improved By State Agent

MERCER, Pa., March 27.—There is no doubt of the improvement in Mercer County in observance of the dog law of 1917 which provides for the payment of sheep claims out of dog licenses fees.

A report just completed by Agent Harry Higbee of the state Bureau of Animal Husbandry shows the number of dogs licensed in 1922 to have been 5,449, while in 1928, the number had almost doubled at 8,907.

In 1922 there were 313 dogs killed for non-payment of licenses fee. In 1928 there were 628 disposed of. In 1922 there were 218 sheep killed; in 1928 the number was 148. The highest number of sheep killed was in 1924 when the total reached 250. The sheep claims for 1928

amounted to \$2,675.07. In 1914 this amount totaled \$4,260.40.

BRIDGE BILL LOW
Mercer County's bridge bill for 1928 as shown by the report of the County Auditor was less than it has been for some time.

The total for new bridges and repairs amounted to \$28,761.40.

JUDGE TO VISIT
Judge J. A. McLaughry will be at Indiana, Pa., all week, attorneys are advised. He is there assisting in the holding of the common pleas term of that court.

MOVIE ACTRESS IS RESCUED BY NURSE

Hollywood, Calif.—No Klieg lights blazed, no cameras ground out footage, as this rescue was staged. But to Miss Harmony Haynes, 6314 Fountain Avenue, the motion picture actress who was rescued, the experience was more thrilling than any celluloid rescue she ever took part in. For this was reality. Clinging to the edge of her shattered health, and with broken nerves constantly threatening to drive her over the brink, Miss Haynes—but let her tell her own story.

"A year ago," she says, "I was working in a Harry Langdon comedy. Eight hours' work each day on the set, an hour making up in the morning and another hour getting the make-up off in the evening, and sewing until the wee small hours of the morning—this was more than a strong girl could stand and I had never been strong. I broke all at once and the doctor ordered me to bed. Five months later I was still there—still nervous and ill.

Rescue repeated
The simple diet change—affair to Postum—has worked its miracle in thousands of cases. For so often sleeplessness, nervousness and other ills that are charged to overwork or other conditions, are chiefly due to a common malaise indisposition. The regular use of the stimulant caffeine takes its toll—eventually something snaps.

Don't wait until shattered nerves drive you to a sick bed! Make the change from caffeine to Postum now! Try this new diet for thirty days—then judge! You'll be astonished at the difference it can make—in the way you sleep, in the way you feel—yes, in the way you look!

Postum contains no artificial stimulant of any kind—nothing to disturb sleep, to harass nerves and heart, to affect digestion. Postum is made of roasted whole wheat and bran. A drink you can enjoy every meal of the day with only the best after-effects. And you will enjoy it! Postum has a rich, full-bodied flavor that millions prefer to that of any other drink.

Your grocer has Postum in two forms—Instant Postum, made instantly in the cup, and Postum Cereal, prepared by boiling. Both cost less than other meal-time drinks—only one-half cent a cup. Order it today—try the 30-day test!

KONJOLA ENDED SUFFERING FROM LIVER TROUBLE
"I Shall Never Cease To Praise This Wonderful Medicine." Says Happy Lady.
"Konjola benefited me after all else failed, and I shall never cease to praise this wonderful medicine," said Mrs. John Jaynes, Elberton, Pa., a short distance from Uniontown. "During the past year or so I suffered undecipherably from liver disorders that brought on blinding headaches that lasted for days. Dizzy spells prevented me from doing my housework. I seldom got more than a few hours sleep. Chronic constipation added greatly to my suffering."
"I had little faith in any medicine that was recommended, but I knew that something had to be done. My friends insisted that I give Konjola a trial. More to please them than anything else, I decided to do so. Konjola went right to work. I could almost feel it. By the time I finished two bottles, my liver was functioning perfectly. I am free of headaches and dizzy spells. New strength and energy are mine and I sleep thru the night just like a child. What a glorious thing it is to have my health again and how I praise Konjola for giving it to me!"
Konjola is sold in New Castle, Pa., at Love & McGowan drug store, and by all the best druggists in all towns throughout this entire section.

Real Prize Awaits "Marble Champ"

Each Semi-Final Winner Also To Share Honors; To Get Prizes

A bright shining loving cup! That's what the winner of the city-wide scholastic marble contest will receive. He'll be the king of New Castle's marble colony, too.

Boys of the city and girls who are not expert "shooters" perhaps, stand a fine chance to win some of the handsome gifts that Jack Gerson is to present.

It's a worthwhile proposition. Not alone will the winner get the handsome cup, but he'll also stand a good chance of getting an extended trip to Atlantic City, where the national contest is always held. Definite announcement concerning this has not as yet been made, if necessary funds can be accumulated, the marble champ will go.

Those who have not yet entered the contest should do so immediately on their return to school next Monday, for the city-wide eliminations have been planned for Saturday, April 27, just one month from today. That much time will be required for the entrants to prepare and to become acquainted with the rules of the contest published in The News sometime ago.

Do not send communications to the office of The News, for the manager of the public competition is located at the Ben Franklin junior high school. It is the Ben Franklin High Club that is sponsoring the meet and it is to that organization that all inquiries should be sent.

INSTEAD of exercise

Here's good news for the busy men and women who haven't time to take regular exercise. Millions have already learned how to keep it with the little exerciser in the vest-pocket box for a dime.

Cascarets make bilious, headachy, constipated people feel fine. Their effect is not only quick, but it's lasting. They give the bowels as much real exercise as you get from an hour's bowling.

Oils, salts and ordinary laxatives don't act like Cascarets. These things produce only mechanical or chemical action. They actually weaken your bowels.

Each time you use Cascarets, your bowels become stronger. Ask your doctor. He knows they are made from Cascara Sagrada, which stimulates the peristaltic action and strengthens the bowel muscles. That's why Cascarets are selling at the rate of 20 million packages a year!

Broken Altars Discussed By Rev. T. J. Logan

Repairing the broken altars of God, was the subject of the sermon delivered by Rev. T. J. Logan, D. D. at the Pentecostal Tabernacle to a large congregation of worshippers, taken from the text Kings 18-30. "Elijah repaired the altars of God and the fire of the Lord fell and consumed the sacrifice," Rev. Logan declared that we need the old time blessing and enthusiasm in our Christian work that was manifest in days of Pentecost and early revivals.

Elijah, although only a humble prophet with much opposition of 850 false prophets, stood for God as a mighty champion and against all opposition he repaired altars of God that were broken down.

The great need of today in our homes and churches is a repairing of the altars of God, a getting back to the sacred altar of Calvary, where the Prince of Peace was crucified for the sins of a lost world of dying men and women.

Dr. Logan said the youth of today does not need the harsh criticism of those older in years but consideration, help and prayer. One of the great reasons of delinquency of youth is that parents have neglected the family altar. The Evangelist said his life was consecrated to the ministry in answer to a Mother's prayers.

Tonight's subject is: "Three days journey with God, from the Altar to the upper room."

PHALANX FRATERNITY WILL MEET TONIGHT

Additional reports on the Tarentum Y. M. C. A. conference, held on March 8, 9 and 10, will feature the meeting of the Phalanx Fraternity to be held tonight. Dinner will precede the session.

The members will be told of the institute sessions and of the meetings held on Sunday in the reports tonight.

A little better . . . a little finer
... a more subtle taste of ginger
... that's "Canada Dry"

You'll know what is meant when you drink a glass of this fine old ginger ale . . . like a day a little brighter . . . like a stream a little clearer and more cooling.

Pure Jamaica ginger and other high-quality ingredients give "Canada Dry" basic excellence. Blended in exact proportions, these pure

ingredients produce its wonderful flavor. Carbonated according to a secret method, this ginger ale is set off with delightful and delicate sparkle. And hourly check-ups prevent variation from determined standards.

A healthful ginger ale and a delicious beverage. Try it and see how easily it makes friends. Order it in the Hostess Package.

Chamber Of Commerce Committee Hears Aviation Man's Proposal

TO BE CONSIDERED
BY BOARD DIRECTORS

At the meetings of the industrial adviser group of the Chamber of Commerce held Tuesday afternoon at The Castleton, the basis on which O. H. Snyder, designer of the plane demonstrated at Bradford airport on the New Castle-Youngstown road in the past few days, will locate and operate a factory for the manufacture of this and other types of planes to be designed, was made known by Mr. Snyder.

His remarks proved of interest to the group in attendance and his proposals will receive further consideration at a meeting of the board of directors of the Chamber of Commerce to be held at The Castleton Thursday at noon. It was stated today by James W. Cole, secretary of the Chamber of Commerce.

Mr. Snyder is an aeronautical engineer and designer of many planes and has the experience necessary to successfully manufacture airplanes. He started in the aviation business at Kalamazoo, Mich., in 1911.

He constructed and flew an Ellingwood type of plane in 1912-1913, making an extended tour. In November, 1913, to early in 1914 he was engaged in designing and constructing a plane used by the late Art Smith and Elmer Partridge. He was with the Chicago Aero Works for several months in 1915, during which time he designed two flying boats and five other airplanes.

From 1917 to 1928, 11 1/2 years, he was in the air corps of the United States army and stationed at Dayton, O., where he was an air corps engineer in charge of the airplane force. He was aeronautical maintenance engineer and civilian chief of the maintenance liaison section, which meant that he supplied technical information.

Those present at the dinner meeting of industrial adviser group Tuesday were: W. J. Offutt, Ira M. Ramsey, James K. Love, Thomas Hartman, H. B. Richards, John A. Butler, James M. Smith, Jr., D. Roy Bradford, A. W. Chilton, R. J. Tully, O. H. Snyder, Herbert Peare, E. W. Marisoff and James W. Cole.

Amendments To Pittsburgh Bill

Cause Of Radio Buzzing Found

Power Leak Discovered On Line
Coming From Toronto
Power Plant

Discovery of the power leak which for almost a week has been blanketing both New Castle and Youngstown with a terrific intermittent buzzing noise, spoiling radio reception in all sections of the immediate Eastern Ohio and Western Pennsylvania districts, was made by Pennsylvania Electric company men yesterday, according to announcement today.

The power leak, the report said, was found in a badly fused switch on the 130,000 voltage high tension line at a point where the wires cross the property of the old Carbon Brick company, between New Castle, and Youngstown.

The flame of the spark was so hot that it melted the switch, parts of which were dangling and drawing along large sparks, which in turn caused the intermittent buzzing. The noise for the past four or more days has been heard on all receivers within a radius of 15 or more miles.

Not was made of the fact that a power causing such a disturbance in the air waves only goes to illustrate the enormously high voltage required to transmit electric power from the Pennsylvania-Ohio Electric company's power station at Toronto, Ohio.

of the United States to the twelve mile limit. Under date of December 26, 1914, this government is on record as not recognizing "presumption" set up by Great Britain in connection with seizure of vessels for the purpose of examination under municipal authority contrary to international law.

The British declare the American tariff act is in the nature of a municipal act in the international law sense, and that they are not ready to concede the three mile limit rule of international law authorizing "hot pursuit," is extended by American salute.

On the basis of the Coast Guard's own report, and while the Canadian and British governments are awaiting the results of their own investigation, the two governments are taking issue with the treasury's point of view, and declare the question of an effort to the British flag enters into the case.

A bitter fight in American admiralty courts to upset the treasury department's conception of its rights under the tariff act and the British anti-smuggling treaty of 1924, as forecast as a prelude to settlement of the many international aspects of the sinking of the vessel.

The master of the I'm Alone, Capt. John T. Randall, wartime lieutenant commander in the British navy, is being held in \$500 bail for trial at New Orleans by the Coast Guard authorities under charges preferred by the warrant officer commanding the cutter Dexter. It was the Dexter which sank the vessel 200 or more miles in the Gulf of Mexico after the Cutter Walcott had started the pursuit two days before.

Informally, already, state department officials are inclined to accept the British interpretation of territorial jurisdiction ending at the three mile limit with under international law and the anti-smuggling treaty. The first paragraph of the treaty definitely commits the United States to acceptance of this principle of international law.

Many Activities At Neighborhood House This Week

Plans Also Being Made For Special Easter Service On Sunday

This is a very busy week for the Neighborhood House on Scioto street, and many activities are going on according to Miss Christina Butler who is at the head of this organization for the children of the South Side. Among the features of this week will be a rummage sale of sewings made

by the beginners sewing class which meets every Tuesday.

The program for the week is as follows:

On Tuesday the house is occupied by the beginners sewing class which is making a steady progress along the sewing line. On Friday morning at 9:00 a rummage sale will be held. Different sewings by this class will be put on sale. This class is under the watchful eyes of the following women: Miss Christina Butler, Mrs. O. A. Hartman, and Mrs. C. Stewart.

On Wednesday, the Womens Bible Class under Mrs. D. F. Blaph occupy the house until 4 o'clock when Girl Reserves under Miss Lowers of the Y. W. C. A. meet. On Thursday afternoon the Embroidery Club under the following women Mrs. W. J. Marshall, Mrs. Eleanor Lewis and Miss Mary Hainer meet. On Thursday

evening the Womens Night School class under Miss Anna Aiken meet. Friday finds the Boys Club under Mr. Thomas of the Y. M. C. A. meeting and on Saturday book exchange day is held. On Easter morning a special Easter services will be conducted. Plans are being made to have a speaker on next Sunday.

Through the efforts of the Highland church and the First Presbyterian church new benches will be introduced for the first time on next Sunday morning. Reports also state that the Neighborhood House will be painted in the inside. This is being made possible through different people and churches who are donating the paint and supplies.

CHINESE DOCTORS

It is said that Chinese doctors are paid to keep their patients well—to watch over the delicate system of nerves, arteries, muscles, bones and tissues—to foresee and forestall sickness.

There are "Chinese doctors" in the telephone industry—more than 4000 men and women in this Pennsylvania organization alone—who give all or a portion of their time to keep your telephone service "well."

Their fingers are constantly on the pulse of the telephone mechanism. They probe the switchboards and circuits, wires and cables. They search for the first symptoms of trouble.

"Preventive Maintenance" we call their work. Which means "getting there ahead of the trouble."

Telephone trouble must be discovered and corrected—whenver humanly possible—before it can affect your service. It is not enough to wait for trouble to come and then correct it.

To this end, our "Chinese doctors" spend hours and hours—many of them while the city sleeps—eternally testing—checking—adjusting . . . so that the service shall be "at all times adequate, dependable and satisfactory to the user."

Young People's Society Plans Work; Church Will Observe Anniversary

GROVE CITY, March 27.—The Young People's Society of the First Presbyterian church have elected new officers and will take up their work on April 1st. The newly elected officers are as follows: Robert Atwell, president; Margaret Montgomery, vice president; Marian Bowle, secretary; Carroll Wilson, treasurer; John McClelland, chairman of Devotional committee; Irene Van Eman, superintendent of Missions; Muriel Clelland, chairman of Social committee.

PLAN CELEBRATION
The session of the United Presbyterian church of this place are now making plans for the celebration of the 50th anniversary of the congregation. Further announcement of the plans will be made at a later date.

OBSERVE LADIES' NIGHT
Ladies' night was observed last night in the Penn-Grove Hotel by the members of the Grove City Rotary club. The losers in the recent attendance contest were hosts to the winners of the contest and their ladies. A fine program was given by a special committee and a chicken dinner was served. A large number attended.

SPECIAL SERVICES
Special Holy Week services will be held each evening this week in the Baptist church at the corner of West Main street and Center street. The services will be in charge of the pastor, Rev. H. W. Jones.

ENTERTAIN CLUB
Mrs. W. H. Hogue and Mrs. H. E. Hill were co-hostesses to the ladies of the Sorosis club at the home of Mrs. Hogue on Poplar street Monday evening. The evening was spent socially and refreshments were served.

Three Boys Flee Jail; Two Caught

Slide Down Blanket Rope At Youngstown; Liberty Is Brief

YOUNGSTOWN, Ohio, March 27.—Two of the three boys who escaped from the Mahoning County Jail by forcing a bar in the cell window and sliding down a rope of rain-drenched blankets were captured Tuesday afternoon a short distance from the jail.

One of the boys was caught attempting to board a freight train in the Baltimore & Ohio yards and the other was picked up in Poland Avenue.

The boys, John Kata, 16, of 911 Franklin avenue; Fred McDonald, 17, of 65 Ridge avenue; and Edward Kalmowski, 17, of Toledo, escaped from the jail during a severe thunder storm.

Two Refuse To Flee
There were five youths in the juvenile ward at the time of the escape but two of the boys refused to flee.

The escape was not discovered until this morning. The boy who is still at liberty came to the jail last Tuesday and asked for lodging. He told officers he was on his way home from Miami, Fla., to Toledo. He was being held for investigation.

Kata is awaiting transfer to a state institution for mental patients at Columbus. McDonald is being held for investigation. He had been absent from his home for a month prior to his arrest.

Suits Without Vests Latest Russian Mode

(International News Service)
MOSCOW, March 27.—The proletarian spring fashion for men is the vestless suit. Unless someone advances an unbeatable argument proving that the waistcoat is a necessary and useful article, the fashion will become permanent.
The reason for the innovation is economy. Some rare brain on the workers' committee of the Traniakv clothing factory in Moscow, which as the largest in Russia turns out 40,000 suits a year, figured out that the material used in making waistcoats would make 10,154 additional two-piece suits annually, and reduce manufacturing costs.

Census Shows Berlin Third Greatest City

(International News Service)
BERLIN, March 27.—The population of Berlin on December 31, 1928, numbered 4,297,180, thereby easily maintaining Berlin's place as the third biggest city in the world.
Only London and New York have larger populations.
But Berlin grows only because it draws on the county. Despite an increasing number of marriages since the war, the number of births were still more than six thousand below the number of deaths.
On the other hand, those that are born have a better chance to live, for infant mortality dropped by 7.7 per cent during the last year.

State Opens War On Unwholesome Pastries In City

Allege Ohio Firms Are Not Com-
plying With State Pure
Food Laws

The first steps in a determined ef-
fort to stamp out the practice of Ohio
firms in evading the provisions of the
Pennsylvania Pure Food Act, were
taken today, when a representative of
the bureau of foods and chemistry,
State Department of Agriculture, is-
sued warning to local restaurateurs
and stores selling pastries that they
are liable to a heavy fine for viola-
tion of the provisions of the pure food
act.

Attention will be centered in the
local district in the future, in an ef-
fort to curb the evil.

While there may be a few Penn-
sylvania bakers who are violating the
law, the worst offenders are found to
be Ohio firms, who do not have in
compliance with such a law in their own
state, and flagrantly violate the pro-
visions of the Pennsylvania Statutes,
the agent said.

The Pennsylvania pure food act
prohibits the use of artificial color-
ing matter in the manufacture of any
article of food stuff unless the public
is informed of the fact.

Pennsylvania bakers are comply-
ing with the terms of the law, it is
found, and have gradually ceased the
practice of using glucose and con-
tar dyes or other artificial substi-
tutes in the manufacture of pastries.
All border cities are to be closely
watched from now on.

Merchants and restaurateurs who
buy from outside firms should insist
on a guarantee that the goods pur-
chased do not violate the provisions of
the pure food law. This will be
their loophole of escape in case they
are found with such goods in their
possession for sale. If they can pro-
duce a guarantee from the manufac-
turer, then prosecution will be shifted
to him.

An Ohio offender was placed un-
der arrest in Sharon Saturday, and
taken before an alderman, where he
was fined \$50 and costs for violating
the law.

FOREIGN WIVES BARRED FOR ITALIAN OFFICERS

ROME, March 27.—Officers of the
Army and Navy Air Force who are
engaged to marry foreign girls are
rushing their marriages to the earli-
est date possible. Several who are
engaged to American girls are most
anxious to get the knot tied.

Others who have been hovering
undecidedly around beauties from

foreign parts they met in Rome this
season, have made up their minds
rapidly. This has brought a large
crop of proposals within the past
few days.

The reason for this unprecedented
haste is that the fiat will soon go
forth forbidding all officers of the
Italian fighting forces from taking
unto themselves foreign brides.

lescence.

While the dates of production have
not yet been definitely set it has been
decided by Miss Mae McKelvy and
Miss Mary Thorpe, local high school
instructors and coaches of the class
play, to hold the junior class play the
second week in April and the senior
class play the third week of the same
month.

The juniors will put on "The Night

QUART OF WATER CLEANS KIDNEYS

Take A Little Salts If Your Back
Hurts. Or Bladder Is
Troubling You

No man or woman can make a mis-
take by flushing the kidneys occasion-
ally, says a well-known authority.
Eating too much rich food creates
acids, which excite the kidneys. They
become overworked from the strain,
get sluggish and fail to filter the
waste and poisons from the blood.
Then we get sick. Rheumatism, head-
aches, liver trouble, nervousness, dis-
eases, sleeplessness and urinary dis-
orders often come from sluggish
kidneys.

The moment you feel a dull ache in
the kidneys, or your back hurts, or if
the urine is cloudy, offensive, full of
sediment, irregular of passage or at-
tended by a sensation of scalding,
begin drinking a quart of water each
day, also get about four ounces of Jad
Salts from any pharmacy; take a
tablespoonful in a glass of water be-
fore breakfast, and in a few days your
kidneys may act fine.

This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithia, and has been used
for years to flush and stimulate the
kidneys; also to help neutralize the
acids in the system, so they no longer
cause irritation, thus often relieving
bladder weakness.

Jad Salts is inexpensive; makes a
delightful effervescent lithia-water
drink which everyone should take now
and then to help keep the kidneys
clean and active and the blood pure,
thereby often avoiding serious kidney
complications.

Pennsylvania Is One Of Leaders In Growing Of Peaches

Lawrence County Found To
Rank High Among Sis-
ter Counties

Pennsylvania is outranked in the
growing of peaches by six other states
in the union, according to the Bureau
of Statistics, Pennsylvania Depart-
ment of Agriculture.

In 1927, the state production total
was 1,867,000 bushels, valued at \$2,-
894,000. Of this amount, Lawrence
county growers produced 37,660 bush-
els which had a value of \$54,610.

Lawrence county ranked fourteenth
among Pennsylvania counties in re-
gard to the number of bushels pro-
duced.

Only Beaver county, in the imme-
diate vicinity, exceeded Lawrence
county in this regard. Beaver county
growers raising 56,880 bushels. But-
ler county produced 28,510 bushels,
and Mercer county, 34,680 bushels.
Cameron, McKean and Potter
counties produced but 70 bushels of
peaches each, according to the fig-
ures.

How Does SHE do It ... on HIS Salary?

WOMEN ask each other... she has
more clothes, smarter clothes, more style...
and is more attractive looking than any wom-
an in her set. Yet her husband's income is
no larger than theirs...

Her things look as if they came from
Paris. Their style is from Paris. But if you
could see the labels, you'd know that she
buys them here in town—at the Goldman
store. She *does* have more clothes, and smarter
clothes because she buys them regularly, se-
lects them carefully... and pays for them
easily!

If you want to see how far your dress
money really will go—come to this store!
It is not just another clothing store, but part
of a great system of stores in more than fifty
cities. These Goldman stores serve almost a
million customers. Their buyers pick the
styles when the styles are coming to New
York—so every Goldman store is months
ahead of the smaller local shops.

And they buy in tremendous quantities,
from the best makers; get the best fabrics,
the newest colors, the smartest models. Big
buying power brings them lower prices, too
—better prices than any single store can get
or give.

The Goldman store is a pleasant place
to buy—or shop. The stocks are all full and
fresh. The salespeople know their business.
The service is satisfying. And the deferred
payment plan makes buying easy!

COME in and look around. And then
you'll understand—how any woman can do
it on her husband's salary!

When Pain Comes

Two hours after eating

What many people call indigestion,
very often means excess acid in the
stomach. The stomach nerves have
been over-stimulated, and food sours.
The corrective is an alkali, which
neutralizes acids instantly. And the
best alkali known to medical science
is Phillips' Milk of Magnesia. It has
remained the standard with physi-
cians in the 50 years since its inven-
tion.

One spoonful of this harmless,
tasteless alkali in water will neu-
tralize instantly many times as much

acid, and the symptoms disappear at
once. You will never use crude
methods when once you learn the ef-
ficiency of this. Go get a small bot-
tle to try.

Be sure to get the genuine Phillips'
Milk of Magnesia prescribed by phy-
sicians for 50 years in correcting ex-
cess acids. 25c and 50c a bottle—any
drugstore.

"Milk of Magnesia" has been the
U. S. Registered Trade Mark of The
Charles H. Phillips Chemical Com-
pany and its predecessor Charles H.
Phillips since 1875.

A FOOD FOR PLANTS
Practical for a few plants
There is no secret in plant feeding that
makes flowers, shrubs and vegetables
bloom earlier and more colorfully. It is
simply the scientific principle of a bal-
anced diet.

Grass needs a special food, of course.
The scientific food for lawns is Y.C. Fair-
way fertilizer. It produces firm, thick turf
of velvety green. You see results.

A little or a lot
You can try these Y.C. products on a few potted
plants or on an acre of lawn. The results
show that they are reliable, reliable when
packaged in both small and large tins.
Go to the nearest dealer and let him explain the
advantages of scientific plant food. He will give
you descriptive literature that will help you im-
prove your lawn and garden.

Red Cross Aids Man To Become Citizen

Frank Dawicki, of 1603 S. Jeffer-
son street, who is making application
for citizenship, was confronted with a
perplexing situation when he came to
fill out his application papers.

One of the important questions
asked was, "What is the name of the
ship on which you arrived in this
country?"

Frank hadn't the least idea. He
had been here since 1908 and couldn't
remember the name of the boat, so
he appealed to the Red Cross. They
wrote to Commissioner Hughes of the
Immigration Bureau at Gloucester,
N. J., and the desired information
was forwarded. Frank had arrived
at New York on the S. S. Havertford,
July 6, 1908.

Army Service Was Different In 1842

Uncle Sam's Army isn't what it used to be by a long shot, republication of an order issued at Fort Riley, Kansas, in 1842, in the Bulletin, Reserve Officer's magazine, shows.

It is a fellow was looking for excitement in those days, he evidently found plenty of it, along the western frontier. Uncle Sam's boys, found time to ride wild buffalos and shoot at their commanding officer, between skirmishes with the Indians, as these peaceful pursuits were forbidden, the text of the general order shows.

Pull beards were also a part of the full dress uniform, probably because the commanding officer got tired of looking at his half-shaved army, and buffalo coats were issued for winter wear.

The sight of a full-bearded warrior clad in the hide of a buffalo must have filled the Indians with fear.

Whiskey was given as a bonus in those days and far as can be learned, there were no flu epidemics at Fort Riley. How could a flu germ attach itself to such a surrounding.

The order follows:

Fort Riley, Kansas, October 25, 1842.

General Orders No. 2.
1—Members of this command will, when shooting at buffalos on the parade ground, be careful not to fire in the direction of the Commanding Officer's quarters.

2—The troop officer having the best trained remount for this year, will be awarded one barrel of rye whiskey.

3—Student officers will discontinue the practice of roping and riding buffalos.

4—The attention of all officers is called to Paragraph 107, Army Reg-

French Star Pays High For Love Of Sunshine

(International News Service)
PARIS, March 27.—Cold weather has cost Maud Loty, beloved French comedienne, the sum of three thousand dollars.

One evening during the recent winter period, Mademoiselle Loty failed to show up at the little Moulin de la Chanson where she was scheduled. She had simply taken the train for the sunny South, unable to support the snow and bleak winds on the hill of Montmartre another moment longer.

Madame Guignon, woman attorney, told the judges that she had failed to move the jury. The court has ordered the charming actress to pay 80,000 francs for her little caprice.

Try Chemicals To Cut Ice Hazards

HARRISBURG, March 27.—Chemically treated cinders to be scattered over ice highways in the subject of an experiment being conducted in the laboratory of the Pennsylvania Department of Highways, by H. S. Matimore, engineer of tests. Although this work is still in its experimental stage, tests have proved the treated cinders far superior to sand, stone chips of untreated cinders. The chemical acts on the ice, the cinders become imbedded and a rough surface results which gives traffic good traction. Perfection of the plan will cut to a minimum winter's chief driving hazard, the engineer believes.

Iowa College Town Votes Sunday Movies

(International News Service)
MOUNT VERNON, Ia., March 27.—Sunday movies finally have come to this small college town.

After several years of bitter controversy, the citizens, at a special election, voted for the Sabbath shows, 360 to 288. The council, in keeping with its promises abided by the "will of the people."

Cornell college faculty and Methodist and Presbyterian churches had lined up on the "blue laws" side.

"About five months ago, following an operation for appendicitis I did not gain strength enough to be up and about. My mother and sister advised me to take Lydia E. Pinkham's Vegetable Compound. I have taken five bottles and it has helped me to get strong so I can do my own housework now. Dislikes Being Dead; Wants Status Changed

SANTA ROSA, Cal., March 27.—Thomas R. Smith of this city reported "killed in action" during the World war is very much alive and has appealed to the American Legion in an effort to have himself declared so.

For ten years the government has been insisting that Smith's sister, Mrs. Nellie Johnson of this city accept \$10,000 in war risk insurance for her brother's "death."

Mrs. Johnson and her brother both steadfastly refuse to admit he is "dead" and now Smith has asked the American Legion to aid in straightening out the records at Washington.

BRAKES
cause accidents
or prevent them

—which kind are yours?

It only takes one skid—one emergency in which brakes fail to hold—to cause an accident. It might be slight—perhaps a jammed fender—and it might cost a life. Why gamble with chance? Brakes, out of balance or not equalized will cause a car to skid to the right or left. Four-wheel brakes—when out of adjustment—add no more to your ability to stop than two-wheel brakes. Your car is only as safe as its brakes. Keep them in perfect adjustment.

We have installed a new JUMBO Giant Brake Tester that scientifically tests two or four-wheel brakes. Use our accurate test every 1500 miles. If adjustments are needed we will make them quickly—at a very reasonable charge.

See For Yourself

Right before your eyes—on accurate hydraulic gauges the JUMBO Brake Tester reveals the true condition of the brake in each wheel. Eliminates all chance for human error—no guesswork—no mere positive equalization and perfect balance of brakes—maximum braking efficiency—“guaranteed safety!”

Legion Of Honor Will Meet Friday

The March meeting of the Legion of Honor will be held Friday evening at eight o'clock in The Cathedral. Secretary Glen Johnston announced today.

The meeting had originally been planned for March 15, but because of the rehearsals for “Parr”, the home

talent play sponsored by the service division of the New Castle Consistory, the meeting was postponed for two weeks. A full attendance of the membership is desired, as many important projects are to be brought up for discussion.

You'll notice the officers know just where to find stills when public clamor makes some action advisable. “The divinity who rules within us, forbids us to leave this world without his command.”—Cicero.

Lawrence County Will Be Advanced By Next Census

(From News Bureau, State Capital)
HARRISBURG, March 27.—Classification of counties in Pennsylvania is due for another shake up following the tabulation of the census next year. Several counties are sure to be advanced upward to the next group while a number of others if their population gains are sufficient also will merit promotion.

Political leaders in the counties affected always manifest a keen interest in these reclassifications for it makes added positions to be filled. Not only are new posts added but the salary scale in the higher class county provides pay increases for the office holder. It is unlikely that any of the counties will show a loss in population sufficient to demote it to a lower rank.

By act of assembly the counties of the state are grouped into eight classes. First class consists only of Philadelphia while the second class is Allegheny. The third class contains counties having a population of

from 250,000 to 800,000. The three in this group are Luzerne, Lackawanna and Westmoreland.

Population limits of the other groups are: Fourth class, 150,000 to 250,000; fifth class, 100,000 to 150,000; sixth class, 50,000 to 100,000; seventh class, 20,000 to 50,000, and eighth class, all under 20,000.

Two of the counties most likely to be advanced are Lehigh and York. Both are now in the fifth class and will be moved up to fourth. When the population was taken nine years ago the former had over 140,000 and the latter 144,500.

Mercer county may be moved up from sixth to seventh class and Lawrence from sixth to fifth. Both of these counties must gain from 7,000 to 15,000 persons if they are to make the grade. Columbia and McKean counties with populations in excess of 48,000 may get out of the seventh class. In Snyder county there is a possibility of advancement to the seventh class for the 1920 census showed a population of more than 17,000.

PLAINGROVE

7 O'CLOCK DINNER

Mr. and Mrs. Robert Peebles entertained at a 7 o'clock dinner. A delicious dinner was served and a general good time was enjoyed by all. TEN HERBS IS GREAT MEDICINE FARMER CLAIMS

Was Only Thing That Ended His Ailments And Gave Glorious Health.

“Ten Herbs is a great medicine,” how often that is heard by the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington St., this city, where he is daily demonstrating this famous new natural medicine. Never before in this lo-

MR. MICHAEL IVANCO

cality has there been any other medicine so generally used or widely discussed as Ten Herbs. This is due to the amazing results it is giving men and women who suffer from stomach, liver, kidney or bowel trouble, rheumatism, neuritis, nervousness, or a general run-down condition. The ten wonderful herbal ingredients of Ten Herbs also cleanse the whole human system of waste matter and impurities, bringing new feelings of health and strength over the entire body.

“Ten Herbs is a great medicine,” was the recent statement of Mr. Michael Ivanco, a farmer, living on Route 3, New Alexandria, Pa. (near Greensburg), to the Ten Herbs Man. “For months I had suffered from indigestion, and I failed to get the slightest relief from any of the many medicines that I tried. My appetite was very poor. After eating, I had terrible pains in my stomach, due to gas that formed from undigested food. Headaches and dizziness often troubled me. There were severe pains in my back and my bowels were very irregular. I gradually became very nervous and would lie awake for hours at night.

“After reading in the paper what Ten Herbs had done for others, I began taking your medicine. I felt better almost immediately. My appetite returned, and food digested properly—no more gas or pains in my stomach. Headaches and dizziness left me. The severe pains in my back gradually disappeared, and my bowels became regular. Nervousness was relieved and I could sleep well. I have more energy now, and my general health is fine. I gladly recommend Ten Herbs to others because of the good results your medicine gave me.” The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington St., this city, where he is daily meeting the public and explaining the merits of this medicine.

Service Commission Probe Is Asked For In House Resolution

By ROBERT F. GORMAN
International News Service Staff
Correspondent
HARRISBURG, March 27.—In a joint resolution introduced in the house today, Representative Martin Menlo, Luzerne county, asked for the appointment of a commission to investigate the affairs of the public service commission. A bill introduced by the same sponsor fixes election to the commission by the legislature rather than appointment by the governor.

The investigation commission would consist of five house members and four senators. The purpose of the investigation would be to ascertain whether the commission is affording the protection to the public interest for which it was created, what means are provided by the commission to enable those appearing for the public to present the case of the public without exorbitant cost, and generally such other matters and affairs of said commission as it may deem pertinent for the information of the general assembly.

The legislative committee would be empowered to call witnesses and require the production of books and papers and to enforce obedience to its process as may be provided by law in the case of such investigating commissions.

An appropriation of \$25,000 is provided for carrying out provisions of the resolution.

Howley Still Building Browns

By QUIN HALL
Dan Howley, bustling manager of the St. Louis Browns, is not content with the fact that his gang finished third last year after the team was almost entirely rebuilt. Almost everyone overlooked the Browns in the early ratings last Spring. This year the dopsters cannot afford to do any belittling when it comes to Howley's team.

After glimpsing the Browns in their early workouts at West Palm Beach, the team seems to have a sweet chance, and, despite the surprise

ing when the season gets under way. Incidentally Dick has a brother, Wesley, who is trying for a pitcher's berth with the Cleveland Indians this year.

Among Howley's recruit pitchers, Collins, Jonnard and Kimsey look to be the pick of the six new ones being tried out. They're all right-handed fingers. Collins will be remembered as the same fellow who formerly did mounted duty for the Yankees, Red Sox and Tigers. Last year he won 17 and lost 9 pitching for Toronto in the International league. He's 32 years old and a six-footer, weighing over 200 pounds.

Claude Jonnard is another old-timer whose arm was believed gone three years ago when he was released by the Browns to Milwaukee. But with two winning seasons in the American Association, Jonnard is up for another shot and is expected to make the grade. Chad Kimsey is a young giant who stands two inches over six feet and weighs 200 pounds. Only 23 years of age, Kimsey won 23 and lost 7 with Tulsa last season. Kimsey is noted as being wild but effective—if such a combination can exist. In Collins and Kimsey, Howley has two of the bulkiest pitching recruits in the pastime.

"Red" Kress, the big sensation of last year, will be the key man around who Howley will build his infield. Blue will be back at the initial corner, but there is some doubt about the second base and hot corner jobs, but whoever holds down the posts the Browns should have a strong infield.

This 23-year-old Leonard Dondoro looks like a great find. He had four years of athletics at St. Mary's in California and his 373 at Tulsa last season—his first year as a pro. He throws and bats right-handed and, if he stands up like he started, Howley will surely use him either at second or third. And he's likely to have the fans standing up and rooting for him.

Another likely prospect is Ed Grimes, another 23-year-old kid, who is listed as a third baseman. Grimes played the last two years with Tulsa and hit .334 in 1928. Originally speared off the Chicago sandlots, Grimes, like Dondoro, has all the earmarks of a big league ball player.

Heinie Manush will be back with his heavy hitting in the outfield. It's a cinch that Heinie will be a tower of strength when it comes to batting

Queen's Mother-In-Law Outcast Of Bee Hive

(International News Service)
DENVER, March 27.—Mother-in-law fights are not entirely typical of the human race, for according to J. E. Eckert of the U. S. bee culture station at Laramie Wyo., a fight between a Queen bee and her mother-in-law would make a human "mother-in-law" fight look like an afternoon tea.

The Queen bee may allow her own mother to stay around the hive for a few days but her husband's mother never. Immediately after they meet the fight begins and continues until

death. The mother-in-law usually loses the battle.

Eckert told many interesting things concerning bee life in his address at the annual convention of the Colorado Honey Producers' association held here.

Seattle May Build Its Own Trolley Cars

(International News Service)
SEATTLE, Wash., March 27.—Seattle city fathers, already in the street car business, may turn street car builders and furnish 200 needed

trolley cars for their municipal system, should the city fathers plan to build a "build your own" plan recently submitted to them.

According to plans and estimates each car could be constructed at a saving of \$2,000 over a cash bid tendered by a St. Louis car building firm. A saving of \$5,500 per car would be made if the rolling stock was purchased on time.

BANISH CATARRH

Breathe Hyomei for Two Minutes and Believe Stuffed Up Head

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomei.

It should clean out your head and open up your nose in two minutes and allow you to breathe freely.

Hyomei often ends a cold in one day, and brings quick relief from snuffles, hard crusts in the nose, hawking, spitting and catarrhal mucus.

Hyomei is made chiefly from a soothing, healing antiseptic oil, that comes from the eucalyptus forests of inland Australia where eucalypti,桉树, bronchitis, tonsillitis, laryngitis, pneumonia and consumption were never known to exist.

Hyomei is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete Hyomei outfit, including inhaler and one bottle of Hyomei, costs but little—at drug stores everywhere. If you already own an inhaler you can get an extra bottle of Hyomei at drug-gists.

Rev. Pearson, Speaker At Lenten Services

Tonight in Trinity church at 8 o'clock the pastor will conduct an informal service of preparation for the Easter communion with a meditation on "How Christ Prepared the Apostles for the First Easter."

In introducing this service in Trinity church Rev. Philip C. Pearson is

but continuing the practice followed elsewhere and giving to the people of Trinity church a new and important opportunity to draw nearer to God. All confirmed persons, especially those presented to the bishop in the last five years should make a special effort to be present. The singing will be led by the senior choir.

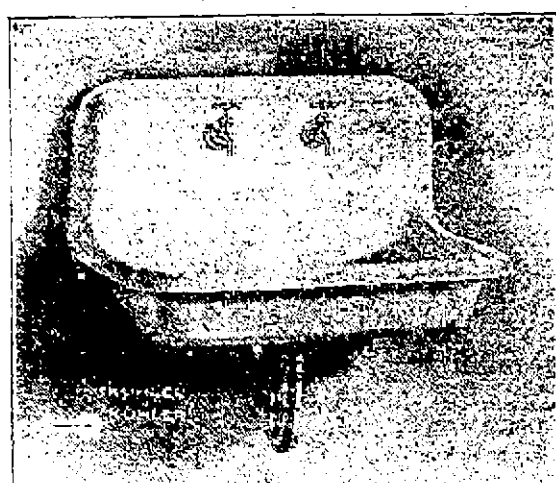

Tomorrow at 9:30 a. m. the anniversary of the institution of the Lord's Supper will be kept in Trinity church. The services on Good Friday are at 9 a. m., 9:30 a. m., 12 m. to 3 p. m. and 5 p. m.

CHILDREN WILL PRACTICE TONIGHT

The children of the Emmanuel Baptist church will meet at 8:30 o'clock tonight in the church for the purpose of putting the finishing touches on the rehearsal of the number to be presented next Sunday evening at the special Easter concert to be held.

Useless wedding presents won't burden Lindy. He can store them with the medals.

Legislators Look Toward Adjournment Set For April 18

State Legislators Get Work

Several Important Measures

Adjourn For Week

By C. R. YORKE

HARRISBURG, March 27.—All
eyes were turned today toward April
18, the scheduled date for final ad-
journment, as leaders of both the
Senate and House whipped things in-
to shape so that all matters of legis-
lation will be completed by that date.
The Senate in a short session is ex-
pected to clear its calendar of the
bills held over since yesterday. Ac-
tion then on the fiscal code series
was impossible, as the printed copies
were not yet ready. A dozen others
also held over for the same reason
will be ready for final action today.

Stock Market Here Busy Place During Recent Sessions

Scores of New Castle investors have
thronged the local stock exchange
rooms of Kay, Richards and com-
pany, during the past few days, at-
tracted by the violent fluctuation of
prices on the New York Stock Ex-
change.

Stocks broke badly yesterday, but
recovered a part of their loss shortly
before the market closed. With
money posted at 15 per cent this
morning the market held rather firm
for the first hour, there were some
losses and some gains, but as a whole
prices were on the upward trend as
compared with yesterday's low.

Unless there is a downward trend
in the money market this afternoon,
it is not expected that there will be
much of a recovery from morning
prices. Uncertainty over the money
situation in view of the Federal Re-
serve board's activities has caused
considerable liquidation, while at the
same time alert traders are picking
up bargains on recessions.

Most of the local dealers have either
bought their stocks outright or
have them well protected and so have
little cause for worry. Indications
are that there will be a tight money
market for some time.

Louisiana Solons To Start Monday On Impeachment Issue

Seek To Oust Young Governor
On Grounds Of Illegal
Practice Of Office

(International News Service)
BATON ROUGE, La., March 27.—
The Louisiana house of representa-
tives probably will not take up the
impeachment charges against Gov.
Huey P. Long to oust the 36-year-old
chief executive from office until Mon-
day morning.

This was decided by the lower
branch of the legislature today, when
it developed that it would take some
time to effect a reorganization of the
house by anti-administration forces,
who are out to have Governor Long
tried on the charges before the state
senate.

DRAWING TO A CLOSE . . . Carload Sale of Living Room Furniture Living Room Suites As Smart As New Gowns From Paris A Showing That Removes All Doubt As to What Sort of a Suite to Buy

If you have been wanting a Living Room Suite,
but haven't made up your mind as to just what kind
to buy, come in and look around.

You will get idea after idea, surprise after sur-
prise, when you see how good-looking a suite of
"custom-built" furniture you can get so reasonably.

Haney's "Custom-Built" Living Room Suites Are Guaranteed

Tempered Steel Upholstery Springs

Haney's "Custom - Built"
Upholstery Springs have
been scientifically de-
veloped to obtain the great-
est possible resiliency with-
out sacrificing wearing
qualities. The wide coils
with knotted tops produce
smoother and more com-
fortable seats and backs.

Hardwood Frames, Increase Value

Haney's "Custom-Built"
Frames are of hardwood.
That means fine woods.
Such as oak, birch or
maple. Sound stock, free
from defects is selected.
No soft lumber goes into
"Custom-Built" frames.

"Custom-Built" Cushions

The soft, yielding cush-
ions in Haney's "Custom-
Built" Furniture are filled
with closely assembled fine
wire springs of exceptional
strength and quality, made
of specially drawn high
carbon wire. The springs
are covered with heavy
layers of clean, white felted
cotton and curled hair
filling.

For luxurious comfort,
"Custom-Built" Cushions
are the most satisfactory
and serviceable ever de-

always of the best sterilized
flax fibre (and there are
many lower grades) or
Louisiana Tree Moss—the
highest grade obtainable—
heavily padded with sani-
tary white felted cotton.

Haney's "Custom-Built" Suites are made exclusi-
vely for Haney's by one of America's leading manufac-
turers. The selection and quality of coverings are some-
thing to marvel at and have never been shown in New
Castle before. Mohairs — Friezes — Moquettes and Ve-
lour coverings usually found on suites selling at much
higher prices.

The Story Of American Industry
Paper Making—Part Four

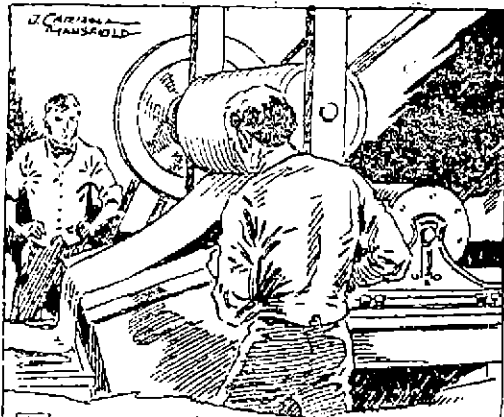

THE FIRST PAPER MILL IN AMERICA WAS ERECTED IN 1690 AT CARMANTOWN, PENNSYLVANIA, BY WILLIAM RITZENHOUSE, A GERMAN PAPER MAKER, AND WILLIAM BRADFORD, A PHILADELPHIA PRINTER. THE GROWTH OF THE PAPER INDUSTRY IN AMERICA WAS VERY SLOW. WITHIN FORTY YEARS THERE WERE ONLY FIVE PAPER MILLS IN THE COLONIES—THREE IN PENNSYLVANIA, ONE IN MASSACHUSETTS AND ONE IN NEW JERSEY.

FOR A CENTURY PENNSYLVANIA LED THE OTHER COLONIES IN THE MAKING OF PAPER. THIS WAS DUE TO THE FACT THAT PHILADELPHIA WAS FOR MANY YEARS THE MOST POPULOUS CITY IN AMERICA, AND MORE RAGS, THE RAW MATERIAL FOR MAKING PAPER, COULD BE OBTAINED THERE. IN COLONIAL TIMES THE PAPER MAKERS SENT MEN FROM HOUSE TO HOUSE BUYING LINEN AND COTTON RAGS.

AT THE BEGINNING OF THE 19TH CENTURY, NEW ENGLAND BECAME THE GREATEST CENTER OF THE PAPER INDUSTRY. THE WASTE FROM THE NEW ENGLAND COTTON MILLS OFFERED THE PAPER MAKERS AN ABUNDANT SUPPLY OF RAGS, AND THE GREAT WATER POWER RESOURCES OF THAT REGION PROVIDED CHEAP AND ADEQUATE POWER. BY 1870 HOLYOKE, MASS., BEGAN TO LEAD THE WORLD IN THE PRODUCTION OF FINE WRITING PAPER.

LIKE OTHER INDUSTRIES, AMERICAN PAPER MAKING WAS DESTINED TO PASS INTO A "MACHINE AGE." IN 1816, THOMAS GILPIN, A PAPER MAKER OF WILMINGTON, DELAWARE, INVENTED THE FIRST PAPER MAKING MACHINE IN AMERICA. GILPIN'S INVENTION MADE PAPER IN LONG ROLLS, INSTEAD OF SHEETS.

Three Probes In Chicago Riot Are Now In Progress

One Man Is Dead, Two Others Dying, Thirteen Suffer Injuries In Riot At Arena

SEEK MAN WHO STARTED RIOT

(International News Service)
CHICAGO, March 27.—With one victim dead, two others dying and 13 still in a serious condition, three major investigations into the disastrous riot and panic during the Fields-Thompson boxing show at the Coliseum Monday night got into full swing today.

The trio of investigations are being conducted by the Illinois boxing commission, the city council and James Mullen, promoter of the ill-fated bout.

The first to die of his injuries was Herman Landfield, 38, who sustained a skull fracture and internal injuries when he was knocked to the concrete floor of the Coliseum and tramped in the stampede for exits.

Alonzo Stroud, 24, a negro, and John Mahoney, 34, are reported near death in St. Luke's hospital. Both suffered compound fractures of each leg and internal injuries.

Many of the other victims will be incapacitated for weeks as the result of similar injuries.

Promoter Mullen has offered a reward of \$500 for information leading to the identity of the men who started the fatal brawl in the balcony. None of the principals was arrested.

CHILD HEALTH WEEK

HARRISBURG, March 27.—A report submitted today to Secretary of Health Dr. Theodore B. Appel, by the bureau of child health showed that 59 counties have now been organized for the child health activities during the first week in May. According to the reports now being received by the department this year will mark the most ambitious program yet undertaken along this line. Emphasis in Pennsylvania will be laid upon the six year old child in order that physical handicaps may be removed prior to entrance into school next autumn.

Not until they can get a living without working will some people admit that times are good.

Rockefeller Estate Engulfs Town; Reluctant Villagers Begin Exodus

Mrs. Mary Jane Connor, shopkeeper, and doomed village of Eastview.

(Exclusive Central Press Dispatch to New Castle News)

EASTVIEW, N. Y., March 27.—The whole village of Eastview is moving it has to. All because its "next door" neighbor, the Rockefeller estate, is taking over the village.

He has purchased all of Eastview for \$700,000. Thus he enlarges his estate to 8,000 acres.

The price for the property, bought for an "unnamed client", is large. But

the villagers are sad anyway. People hereabouts seldom move. They have traditions. A few miles away are Tarrytown and Sleepy Hollow, famed in tradition and story.

Mrs. Mary Jane Connor, resident for 40 years, keeper of a general store, is closing shop. And so is John Brown. The house he was born in, behind his crossroads store, is more than 100 years old.

Railroad tracks of the Putnam division of the New York Central, diverted from encroaching on the present Rockefeller estate, will be laid where those structures stand.

Although "neighbors" to the Rockefellers (John D. Sr. lives in a vast estate next door to his son's), none of the villagers ever is believed to have talked to them. Most of them never even have seen the elder Rockefeller.

Famous Gate Crasher Goes Through On Bus, Enroute To Chicago

By "BUGS"

Had a telephone call this morning from a very distinguished figure in the world of fisticuffs. No other than "One-Eyed" Connelly, himself, gate-crasher supreme.

Connelly said that he was on his way to Chicago to witness the Walker-Loughran fight in the new \$10,000,000 fight stadium on Thursday night. The New York-Chicago Bus Line carried the man who has grabbed

as much publicity in the boxing game, as Colonel Lindbergh has in the aviation racket.

A familiar voice on the other end of the line this morning said "Hello" this is One-Eyed Connelly speaking.

Just passing through from New York to the Windy City.

"Was just passing through New Castle on my way to Chicago for the Walker-Loughran fight."

Connelly. The writer assured the gate-crasher that New Castle was booming, and that the City Dads were in complete control, and that everything was sub rosa.

"Weren't you down to Miami Beach recently for the Stribling Shurkey fuss?" Connelly was asked.

"Yes I was there all right, any say what flop that turned out to be. Honestly the entire business was sickening to me. I purchased as best to my recollection a Tuxedo, you know the whole works from 'soup to nuts' and thought that I would be in style at the big fight. It turned out that I was almost exclusive. There were only five others in that 'big crowd' with the 'glad rags' on. Really I felt foolish."

"How much did the suit of fashion set you back?" the writer ventured at Connelly.

"Well to be honest with you the 'Tux' cost me the grand sum of \$32.00 iron men."

"Did you have any trouble crashing the gate at Miami?" the writer asked.

"No, that was an easy task, one of the easiest that I have ever experienced. Maybe that Tuxedo had something to do with it, but at that I don't think that they mistook me for Carey."

"I wish to inform the dear public that my society debut at Miami Beach was every bit as big a bust as the fight itself."

Tuxedos do not make the man, seemed to be Connelly's viewpoint.

"How's Eddie Fritz, the News Sport Editor? and Jimmie Dime and George Chip and Billy Jolly?" Connelly wanted to be remembered to all of them. The writer informed his majesty the "elusive" One-Eyed that all the boys were able to eat three squares a day.

Connelly said that he expected to reach Chicago the famous two-gun city of the Mid-West about 3 o'clock Thursday morning.

"Who do you pick to win the fight?" the writer asked hurriedly as the bus was waiting for One-Eyed and he had to make it snappy so he said.

"Well 'Bugs', and he was getting familiar by this time. I think that Loughran will retain his crown. Walker is a good boy, but he cannot punch with the Philadelphia boy."

"The bus driver was tooting his horn for 'One-Eyed' and with a goodbye and good luck the receiver banged down. Thus ended the exclusive interview granted a New Castle newspaperman with the man who surely can sneak-by."

One-Eyed Connelly while talking with the writer said with firmness that he did not write the popular song "I'll Get By."

The only fair and sensible tax is the kind of property you haven't got.

Wirt Urges Care In Brush Burning

HARRISBURG, March 27.—Spring is the danger time in brush burning and a bit of carelessness may result in costly destruction of timber, Chief Forest Fire Warden George H. Wirt, said today.

During the past five years forest fires due to brush burning averaged 191 each year or a total 7.8 per cent. of all reported.

"Fires due to carelessness in burning brush are actually increasing relatively instead of decreasing," Wirt said. "Lack of proper care makes it possible for these fires to get out of control. Spring is the time of the year when trees and vines have to be pruned, gardens are cleaned preparatory to planting, and house and yard cleaning are in order. Unfortunately, it happens that at the very time this human desire for the disposal of unnecessary material is most active, conditions in the forest are most favorable for the start and spread of fires. It is surprising how rapidly tree leaves, dead ferns, and grass become inflammable after being soaked by melting snows or heavy rains.

In the spring, particularly in March and April, windy weather is at hand and no one can tell a moment in advance what the wind will do or from what direction it will blow," he continued. "Beware of a quiet day in spring if you wish to burn anything outdoors. The starting of even a very small fire at such a time creates currents of heated air, and sparks are carried great distance, and almost instantly the fire is beyond control. The only safe times for spring brush burning are when snow is on the ground, when it is raining, immediately after a rain, or at night when there is dew or frost. The great danger period usually extends from about

March 15 to June 1. The best recommended manner is to burn brush in small piles. Always burn down-hill against the wind."

In every case where the Department of Forests and Waters can determine the cause of a fire and place the responsibility upon a person, that person is asked to pay the cost of extinction. He may also be prosecuted for the violation of the law which prohibits the setting of forest fires.

To Give Life Saving Tests

Red Cross Field Director Here
To Conduct Tests In
County

THREE POOLS WILL
BE USED IN WORK

William G. Kieb, Red Cross life saving field director for Pennsylvania, New York and New Jersey, arrived in New Castle today to give life saving instructions and examinations to nearly a score of swimming leaders of this community. Mr. Kieb will be located here until Friday.

The life saving supervisor came to New Castle from Jamestown, N. Y., and will leave sometime Friday for Plainfield, N. J. During the time he is located here a full schedule calls for his presence at the Westminster college, Y. M. C. A. and George Washington junior high pools.

The schedule as arranged by the local chapter calls for Mr. Kieb to open his life saving program at the Westminster pool this afternoon at 2 o'clock. There an examination will follow the demonstration. At 7:30 tonight at the Y. M. C. A. pool, Kieb will conduct another test for examiners.

Thursday's schedule calls for an examiner's test, for men only, at the Y. M. pool at 2:30 p. m. This will be the only one conducted tomorrow. Friday Mr. Kieb will conduct a review for women only at the George Washington pool at 10 a. m. This will afford the lady swimmers of New Castle their only opportunity for a life saving review.

Each examination that Mr. Kieb gives, except the one at Westminster and the George Washington review, will be for men only, he stated today. Local Red Cross examiners who will take further instruction and examinations, who have already notified the Secretary P. J. Dempsey of their intentions of doing so, are Paul E. Berry, Donald Gillespie, Miss Gertrude Gillespie, Jack Herbert, J. M. Hulme, John Kraft, Sarah McGoun, Cecil Morgan, Miss Mary Zeigler and Mrs. Margaret Robinson.

Mr. Kieb remarked this morning, soon after he arrived here and had arranged his schedule, that all swimming enthusiasts in this district should avail themselves of the instruction and examinations. Certain changes have been made in the methods of life saving and it would be invaluable for them to know these.

No charge whatsoever is made for the instruction that Mr. Kieb gives, or for the examinations. His expenses are paid by the national organization out of the 50 cents that is sent to Washington from every subscription obtained during the Red Cross roll call in the county or community chest drive in the city proper. Anyone has the opportunity to take advantage of the service.

LEGION EXECUTIVE COMMITTEE TO MEET

A special meeting of the executive committee of the American Legion will be held in the Legion Home Association Building Thursday evening at 7:30.

The meeting will be probably the most important session of the year as many matters of vital interest will be discussed and a full attendance of all members is asked.

Navy Air Chief Is Young Man And Real Flier

By EDWARD B. LOCKETT
International News Service Staff
Correspondent

WASHINGTON, March 27.—Aviation is a young man's game, they say, and Herbert Hoover has chosen a young man to run the navy air corps.—Davis S. Ingalls, 30, Ohio lawyer and legislator, but fiercest of all.

Ingalls is the new air secretary of the navy, and says he's tackling a job he's "crazy about." He has been driving his own plane for years, much as the average man drives an automobile.

He won citations from both his own country and Great Britain for extraordinary bravery in the war before he was 20. Then he came back to his home in Cleveland and served two terms in the state legislature. He left a lucrative law practice and a high position to take up his present job. Brown haired, of small stature and well knit frame, Ingalls presents a pleasing personality, that hardly hints of the host of accomplishments he has crowded into the last decade. His

war record reads like an adventurous novel.

No Policies

"Policy?" he said, answering an inquiry. "I'm just learning what it's all about here now. I want to find out what policies have gone before me, get acquainted and learn what I can do to advance the service."

The new secretary has already tried out the navy's planes. Almost daily since taking office he has slipped across the river to the naval air depot to take a Vought "Corsair" pursuit plane up, chat with the men around the base and poke delightedly around the familiar airplane equipment. He owns a fast plane of his own, which he left in Ohio.

The new chief plans to make good his word of "getting acquainted" on a broad scale this summer. His first inspection trip will embrace the countryside network of naval air de-

This Valuable Service Saves Time When It Means
Money to You. Yet It Need Cost You Nothing

EVERY time you pay by check you save valuable time—sometimes only a few minutes, often more. Take a month's cancelled vouchers and estimate the value of the time it would have taken to make the same payments in cash. Then multiply by 12 to set the yearly saving. The amount will startle you.

Checking service has other values to you, too. It gives you a legal receipt. It makes efficient, easily-kept records of financial transactions, visualizing expenses for easy control. It keeps your money in a safe place, yet the purchasing power is always at your pen's point.

Probably over 90% of all business transactions today, involve the use of checks, but with increased banking costs, many accounts, profitable ten or fifteen years ago, actually represent a loss to the bank today.

The surplus left on deposit is the bank's only source of revenue from checking accounts. If funds are checked out as soon as deposits are made, naturally there is no surplus, no revenue and no compensation to the bank for the service. Yet it costs the bank just as much to handle 32 checks for the man who keeps no surplus on deposit as it does to handle 32 checks for you with a reasonable reserve always in the bank.

A checking account, properly used, is an important source of profit to you. Talk it over with your banker and arrange to put it at work immediately.

HAPPENINGS IN WORLD OF SPORT

Fans To See Great Bout Here Monday

May Not Be Able To Count Punches Of Davies And Wolgast

DINGER MAY APPEAR IN SEMI-FINAL BOUT

By ED. FRITZ
ILLIE DAVIES, the marvelous Welsh-American and Midget Wolgast, the Italian-American phantoms, will clash here next Monday night and one of the most sensational battles in the history of the sport will be staged at the Jolly Bowl. Davies and Wolgast hold decisions over Frisco Grande and without a doubt are two of the most beautiful performers in the ring and fans who step inside the big enclosure are sure to see a fanciful display of fistcraft.

Last Monday night the announcer pulled a "buzzer," it is true but that is not the fault of Promoter Jolly. These things happen in other cities but, inasmuch as most of us only see boxing here we imagine it is terrible—and frankly speaking we were amazed but that's history now. Wolgast has the fight, and that's that.

In Training For Bout
Davies has been in training for more than a week as he anticipated that he would fight Wolgast here. He said Monday night that he is in excellent shape and declared that he would be ready for his great display of boxing when he steps into the ring with the Midget next week.

Before he left for New York, the Midget told the writer: "I'll be back several days before the bout and train at the bowl. You fellows have certainly treated me square and I want to box for you again. The error was not the fault of the Jolly Bowl promoter and as it was discovered, everything is just fine."

Chinaman To Fight
When the fight goes on the fans here will see something they have never seen here—a Chinaman in the ring. Yes, Sir, a famous Long Sing Que, featherweight preliminary fighter of New York will fight Roy Minter at 118 pounds. Johnny Keyes, called the mayor of Chinatown is bringing Long Sing Que here.

Johnny says that Long Sing Que likes to fight and says he wants to show fans of the Tri-State district that the Long Sing Que person isn't afraid to tackle Roy, though we expressed the opinion that Minter would outpoint him. "Wait until you see my Chinaman," replied Keyes.

Bout Fixed Expensive
The fans here certainly seen a costly bout in Grande and Wolgast also Grande and Davies. When they see Wolgast and Davies a Madison Square attraction will be the one to bring the fans out. The bowl will not make a dollar because the bout is wanted here and could only be secured by raising the price, dictated by the managers.

They insisted that the price be made larger or the fight would go to Philadelphia or some other city and knowing the temperament of fans for the Davies-Wolgast fight, the request of Davies and Wolgast was met. The raise is similar to moves adopted by

other clubs when high class attractions are secured.

Seek For Dinger
Efforts are being made to secure an opponent for Joe Dinger of New Castle, formerly of DuBois. Jimmy Dime, the veteran teacher has been putting Joe through the traces and according to Dime he is ready to match him against any 151 pounder. Buck McTernan was asked to box Joe but cannot because he is busy Monday night.

According to Dime, the New Castle boy is a ponderous hitter, tough and is ready for some of the better boys. He hopes to defeat the man who is selected for him and prove that he is capable of graduating to main bouts. Phil Scello of McKeesport may accept the bout but this won't be known until late today.

Rules Over Chinatown
Fans who watched the fight a few evenings ago wonder why Johnny Keyes is called the "mayor of Chinatown." For years Johnny has furnished the contact between authorities and the Chinese colony. He is versed in the language and his decisions in controversies has settled many threats of pending Chinese wars.

He calls his word his bond and he certainly lived up to his word here. When he came to New Castle he said that if Wolgast won he would let Wolgast box Davies. His left hand flick like bullets and there is no danger on the American stare more ambidexterous with their feet.

Many believe they cannot punch. Of course they can't—as heavy as a featherweight or lightweight but for their size they can hurt each other as was evidenced when Grande floored Davies and when Wolgast sent Grande reeling against the ropes. It looks like action plus action when they clash.

Survival Of Fittest
When these two clash it will be a test of speed, good eyesight, trickery and heart. Fans may be able to count the punches but if they do they will need good eyes. Their left hands flick like bullets and there is no danger on the American stare more ambidexterous with their feet.

The Merry Widow tenpin tournament is under way at the alleys. Russo and Hammond are high in the doubles with 1096 and the former is leading the singles with 555. The guaranteed prizes are \$100 in gold to the winners of the doubles and \$50 in gold to the single top score.

Other reports from Solomon's says that the Pittsburgh district won the divisional tournament took fourth place in the All-System meet last week in Detroit.

Home From Detroit
C. H. Clark president of the Ohio Division Athletic association of the P. and L. E. Central lines has returned from Detroit, Mich. where he attended the New York lines bowling tournament which was held in the Palace Recreation alleys according to word from the McCoy alleys.

On Saturday evening there was a banquet for the bowlers and officials of the New York Central which was attended by several hundred men and lady employees. The fête was held in the Stadler hotel and was followed by an interesting entertainment which was sponsored by the Detroit association. Clark will be present at the A. B. C. congress April 1. He will bowl with J. D. Thompson and several other bowlers from the Baltimore and Ohio railroad on April 2 and 3 according to reports sent to this column.

Baseball Field High
National Radiator played an excellent game, scoring 858 runs in the first duckpin game which gave them a lead of 254 pins over the Baltimore and Ohio railroad team. THE WEEKLY MEETING OF THE "I WOULD HAVE MADE" CLUB

"Billy" Russo, Natural Bowler

That's What Old-Timer Bowlers Say Of Seventh Ward Bowler

CLARK RETURNS FROM DETROIT

Billy Russo, stellar maple knocker, hung up two beautiful games on Solomon's alleys. In the first game he got 8 pins and finished with 11 strikes. In the second he started with 8 pins, then 10 strikes and 8 pins, totaling 276. It was his first year with the ten pins and all the old-timers, according to reports describe him as a natural bowler.

The Merry Widow tenpin tournament is under way at the alleys. Russo and Hammond are high in the doubles with 1096 and the former is leading the singles with 555. The guaranteed prizes are \$100 in gold to the winners of the doubles and \$50 in gold to the single top score.

Johnny Piai To Box Joe Dinger

Fans here will see Monday night what chance Joe Dinger would have with George Perot-ta when he takes on the tough, rugged, hard-hitting Johnny Piai of Greenville in the six-round semi-final to the Wolgast-Davies tilt. They will box at 152 pounds, give or take a pound which means that they can weigh 153 if they wish.

By CHARLEY BARRETT
Big League Scout Writing for Central Press and New Castle News.
Remember Reine Zim's famous stunt of chasing Eddie Collins over the plate in a world's series game? He was ridiculed as a numbskull on that play because of the prominence of the game, although the same mistake is still pulled a dozen times in a year without any special mention.

I came across a quaint variety of this play when touring around with the Topeka club last summer. It was a brand new variation of this particular boner.

Here is the way it went. The home team had runners on third and second with one out and were anxious to get the run over the plate. So anxious in fact that the fellow on third strayed so far off the bag that he was soon caught in a run-up by a snap throw by the pitcher.

As they chased him up and down the line the runner on second moved over to third. Finally the catcher took it on himself to personally chase down the trapped player. All the while the fellow who had moved up stood on third, apparently resigned to one sure out.

Just like the Zimmerman case, the catcher underestimated his speed. The runner not only got back to third, but kept on out to left field with the catcher in full chase.

Then the fellow who had come up from second beat it for the plate. And made it, too. The catcher chased the first man out past the left field to make a perfectly useless out.

It was an open and shut case of several kinds of stupidity and as funny a situation as will come up during the course of a season.

Baseball Teams In 'Big Show' Prepare For Season

WINTER HAVEN, Fla., March 27.—The Philadelphia Nationals' accumulation yesterday what the champion Yanks have been trying for several days to do—defeat the St. Louis Cardinals. The Phillies won 8 to 4, after having had three runs scored against them in the first.

ST. PETERSBURG, Fla., March 27.—The Boston Braves pushed over the tying run in the ninth yesterday and added another in the 12th to beat the Athletics 7 to 6. Lester Bell who was brought to the Braves at the request of Hornsby last year batted in the winning run.

PHOENIX, Ariz., March 27.—After being trimmed by the Pittsburgh Pirates 7 to 4 the Detroit Tigers today faced the Chicago Cubs who defeated them five times in succession last week on the coast.

SLIPPERY ROCK GIRLS WIN FIRST CONTEST

WICHITA, Kan., March 27.—Slippery Rock college, Pennsylvania's hope in the girls' national basketball tournament here, today was a step nearer the title after a 20 to 15 victory over the Speedometers of Cleveland in the second round of the tourney last night. The Pennsylvania lassies were not scheduled in tonight's round.

Leonard Friedman To Captain Geneva

By "BUGS"
Leonard Friedman, son of Mrs. Jennie Friedman of 419 Leasure avenue, this city, star forward on the Geneva college basketball team for the past three years, was elected as captain of the 1929-30 Geneva squad at a banquet tendered the team on Monday night.

Len, as he is known here, is a former New Castle high star in basketball and track. Upon graduation at New Castle high, Friedman entered Geneva and made the floor team in his first year. In track the popular Jewish boy is a real "find" and throws the javelin with the best in this section of the country. Friedman holds the javelin record in the tri-state district.

Very Clever Forward.
As a basketball player the Jewish boy is one of the mainstays of the Geneva team. Cool, calm and collected at all times, Friedman ranks with O'Donovan, Rush, Delahunty and other great floor stars of the section. His selection as captain of the Geneva team for next season met with instant approval from the entire Geneva student body, as well as his mates in basketball. Friedman succeeds Howard Emerick of Williamsburg as floor leader. Coach Ken Loeffler in a short speech paid a high tribute to the sterling quality of the new Geneva leader.

Graduate Manager Edgcombe announced at the banquet that Coach Ken Loeffler would be retained for another year. Loeffler's re-election met instant favor. In his first year as coach of the valley school, Loeffler took the Genevians to a deadlock with Bethany for tri-state championship honors.

Geneva loses in addition to Howard Emerick, the following men: Clair Merriman, Harold Bruce, Sam McKinney and Harry Mesnick. Friedman received a first team rating on an all-conference team selected by the writer a few weeks ago. Friedman is one of the finest young athletes that ever left New Castle high, and is "making good" in collegiate circles.

Building Stadium For Loughran Fight

By GENE HOFFMAN.
International News Service Staff Correspondent
CHICAGO, March 27.—An army of building craftsmen were working feverishly today putting the finishing touches on Paddy Harmon's spacious Chicago stadium that it might be ready and comfortable for the 25,000 customers expected to witness tomorrow night's opening spectacle—Tommy Loughran defending his light heavyweight championship against Mickey Walker.

Installation of ring-side and main floor seats is about the only important task yet to be accomplished. Harmon says the gigantic structure will be ready and that its size and beauty of design will be a revelation to the opening throng.

As to the principals on the "entertainment committee"—Loughran and Walker—both are ready and in the language of their respective camps "rarin' to go."

Walker finished his strenuous part of his training yesterday. Loughran dispensed with similar work the day before. Both are said by experts who watched the final workouts to be in "top" condition.

There is little doubt today that Loughran will be able to make the weight—175 pounds. Walker will go in at close to 165 his best fighting weight.

It appears certain on the eve of battle that Loughran will not enter the ring a favorite of bettors. Odds a week ago were 7 to 5 in his favor but the presence of Walker on the scene with his optimism and display of strength in his workouts has converted a lot of Loughran money. They will probably start at even money.

Carpentier To Take On Kaiser

As Romeo Pacelli claims to have sustained a bruised arm and cannot box Young Kaiser again next Monday night, U. S. Carpentier, the favorite with New Castle fans, has signed to box Kaiser at 130 pounds and it looks as though there'll be lots of action when the six-round go starts.

Bessemer Enters County Circuit

Bessemer Will Place Fast Team In Lawrence County League This Summer
WEST PITTSBURG FAILS TO REPORT

The managers and officials of the Lawrence County league held an important meeting at the Sporting Goods Store on Tuesday night. The most important business transacted was the admitting of Bessemer to the circuit.

It was hoped that a good fast eight-team league could be sponsored here this year and seven teams were in the fold up until last night. West Pittsburg did not attend the meeting and it is rumored that the West Pittsburg team will forsake the league this season. If another team is not secured by next week the league will operate with seven teams.

The Garlands were given until Saturday night to enter the league. The schedule committee composed of Alec Samuels, Carm Sacco and Bob Robertson will start drawing up the schedule next week.

The teams in the league so far are Italian A. C., Ryanow, Slovak A. C., Penny Railroad, Warram, Hillsville and Bessemer. Warram has been heard from South Hills, Clifton Flats and Edentung.

The officials earnestly hope that a good eight team can be secured to complete the circuit.

Chick Davies To Coach Tech Team

PITTSBURGH, Pa., March 27.—Chick Davies, at present basketball coach at Duquesne University, is understood to have been named in his resignation, and that next year the popular Duquesne mentor will be found at the helm of the Carnegie Tech basketball squad.

Davies has had big success at the Tech school and it was with regret that the "Duke" officials let him get away. The taking over of the reins of Tech is another step up the ladder for the former well known semipro floor star. Davies is quite well known in the Tri-State district.

Davies succeeds John Irwin as coach of the Tech team. Irwin resigned recently to take up his duties as high school mentor.

Pyles Foot Frolic To California To Start In New York Sunday

C. C. Pyle Expects To Clean Up This Year In Race From East To West Coast

Several Hundred Runners Are Entered In Long Trek; Gavuzzi Back In Field

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, March 27.—The mad millions of the madman are on the loose again! Calling upon his unswerving determination and enterprise, the writer was able today to substantiate this fact and even confirm it officially. There had been sinister rumors hitherto but the real truth hadn't been divulged, as their preparations had gone forward with almost clandestine stealth. Yes, the mad millions, simple, childlike souls who pay Charles Pyle very reliable money for letting them use the public roads in running across America, are ready for the madman again.

The second episode of the foot frolic from coast to coast will get under way and start back on the overland trail from New York on Sunday and New York doesn't mind saying that, if it never finds out about the matter, it will be premature. New York has paid no attention to the thing in a big, broad way.

But I caught up with our friend Charles today and, if he was disturbed by the ominous silence that is greeting his 1929 extravaganza, he must have bought that smile at the hairdresser's. In fact he sold me a lot of blue sky and, as he talked in vulgar thousands, a secretary tiptoed in to say that some John from Punksawney, Pa., was telephoning to ask if Charles would wait until tomorrow for his entry money.

"I'll even wait till I get it," said he. "That's Charles all over. He'll give any guy a break and ask nothing in return from the fellow except maybe his money. Anyhow, he says he has upward of \$30,000 in entrance money and \$60,000 in guarantees from the towns en route, which means that Charles is determined to turn his mad millions loose and you couldn't stop him with a subpoena."

Sam Robinson, of Atlantic City, who finished the race last year and then was unable to stop running for days and days, won't be available. Neither will Wildfire Thompson, the searded prophet, who turned around

and ran backward ever and anon just to do it the hard way. They will be missed but there are a hundred others with a hundred different idiosyncrasies. Besides, won't Peter Gavuzzi be in there again?

Gavuzzi To Run. Pedro is the gay lad who claims he lost the 1928 race because of innate vanity. In a moment of weakness, he climbed into a barber's chair at Elvira, Ohio, and had his beard shaved shamelessly down to the neck. It was the old story of Delilah and the shears. Pedro was five hours ahead of the field at that time but without the side curtains up, he contracted a toothache. His had been the faith that did more than move mountains; it had climbed them. But, naturally, he couldn't be expected to run any further on an aching tooth. His face would get terribly lacerated in no time. So he resigned.

He is an Italian residing in England and, according to Charles, his entry furnishes a touch of the cosmopolitan character with which the entranced will be blessed. He says he has entries from Italy, South Africa, Canada, Australia—upward of a hundred, all told, all paid, did you ask? No, while Charles is even comatose. He is paying nobody this year, he tells you, except the prize winners who reach Los Angeles on June 18. Thus, he says, is one of the lessons he learned in 1928. There will be no "nut" for food and housing; the runners must take the rap on this, besides paying a much-increased entry fee of \$300. Charles figures it will cost each man \$1,500 to run across the continent in his Charles' honor. But he points out that most of the mad millions will be operating under the auspices of advertisers. Another thing he figures will save him plenty is that he will cross the desert, an expensive undertaking, at the end of the race this time, when the field will be cut down to a minimum.

Yes, Charles had a lot of blue sky on his hands today. He said his expenses would total \$130,000; that he would get \$30,000 from the runners, \$60,000 from the towns, \$50,000 from the sale of programs at the side show he carries with him and as much as \$60,000 from the show itself, leaving a profit of \$70,000.

New you tell yours.

Bowling Columns

Shenango Potters defeated the P. & L. E. in one of three duckpin games at Solomon's alleys but their total number pins carried them over. Joyce was high with 179 pins. J. H. Corbins won from the Mahoning All Stars by 153 pins. They took two of the three game. Rubino was high with 204 pins. The All Stars however, defeated Ellwood City in two of three games by a wide margin. Solomon was high with 188, but in another game the bowling was so close the All Stars only won by two pins.

Patrol Recovers 58 Stolen Autos

HARRISBURG, March 27.—While running up a total of 420,000 miles of highway patrolled in February, state highway patrolmen aided in recovery of fifty-eight automobiles. Benjamin G. Eymon, registrar of motor vehicles of the Pennsylvania Department of Highways today reported. State police, private detective organizations and record clerks of the Bureau of Motor Vehicles played important parts in restoring the vehicles, valued at \$30,718, to owners in thirty-two cities and towns of Pennsylvania and in eight states.

The biggest haul made by the thieves was valued at \$2500, while the poorest was a coupe valued at \$50. Combined with the January report, February recoveries make a total of 140 cars with a value of \$75,935, while the report of February, 1929, shows more cars by six and \$5000 more value than in 1928.

Police of other states returned six cars to Pennsylvania, owners, while Pennsylvania officials restored eleven cars to out-of-state owners.

School Attendance Reaches New Record

HARRISBURG, March 27.—Reports submitted to the Department of Public Instruction show that during the school year 1927-28 213,912 pupils were perfect in attendance in the public schools of Pennsylvania. Of these pupils 83,159 had been perfect in attendance during some preceding year or years. Twenty-five thousand, three hundred and thirty more pupils were perfect in attendance during the past school year than had been perfect in attendance during the preceding year when 191,582 pupils maintained such a record. On an average 114 of every 1000 pupils enrolled in the public schools were neither absent nor tardy during the entire term. More pupils attended school every day without being tardy than were enrolled in the public schools in each of fifteen states of the United States. The records of these pupils and other attendance records made it possible for

New ease and safety in steering more comfort in riding...

ALL Packard cars—the Standard Eight, Custom Eight and Eight De Luxe—provide riding comfort and driving safety never before achieved in any automobile.

Packard's unique and exclusive Shock Absorbing System performs a two-fold function. It cradles and cushions the body against bouncing, rebound and "striking through." It eliminates positively all front wheel "shimmy."

Double-acting, hydraulic shock absorbers, Packard-designed and Packard-manufactured, are built into the chassis as an integral part—with ball ends lubricated by Packard's centralized oiling system. Their gentle action, combined with Packard's deep and luxurious new cushions, means divan-like comfort on all roads.

A special shock absorbing device into which the left front spring is mounted at the rear, cancels all steering jars—prevents front wheel vibration and steering wheel "whip."

So easy and safe is the new Packard steering that the car can be guided over the most uneven roads—and at high speeds—with only the finger tips touching the wheel.

When may we demonstrate the comfort and steering ease of the Packard model of your choice? A wide selection is available—for Packard now builds three complete Straight Eight lines, at three distinct ranges of price.

The Standard Eight (reduced March 4th) is priced from \$2275 to \$2675—the Custom Eight from \$3175 to \$3850—and the Eight De Luxe from \$4585 to \$5985—at the factory. Individual custom cars are also available to order on the De Luxe chassis.

If you prefer to buy out of income, instead of capital, you will find the Packard Payment Plan most attractive. Many take possession of their new cars without any cash outlay—and with the small monthly payments made smaller because the used car allowance exceeds the down payment on the new car.

Voting Machine Measure Passed By Senate Today

Harris Bill Fixing Regulations Governing Voting Machines Is Passed

REFERENDUM VOTE CAN NOW BE TAKEN

Measure Passed Today Is Enabling Act; Amendment Adopted In Last Election

By CLYDE SHUE, International News Service Staff Correspondent

HARRISBURG, March 27.—With-out a dissenting vote the senate today passed finally and sent to the house the Harris bill which fixes the regulations governing the adoption of voting machines. The bill is an enabling act for the constitutional amendment adopted last November to permit the use of the machines.

Under the bill a referendum to decide upon their adoption and use may be taken at any November election upon previous petition of one per cent. of the qualified electors who voted at the preceding general or municipal election.

When a referendum is to be submitted the bill makes it mandatory upon the taxing authorities to determine whether there will be current funds available for purchase of the machines in case the electorate decides for their use. If current funds are insufficient then at the same election a proposal for the necessary increase in indebtedness also must be submitted.

If the proposal for use of the machines is defeated it may not be submitted again for vote within a period of 103 weeks.

When the proposal is approved the bill provides that they may be adopted either simultaneously or gradually in the political subdivisions.

Can Force Action. In case the voters approve use of the machines and the county commissioners within one year thereafter do not execute contracts for their purchase the bill gives the secretary of the commonwealth power to make such purchases if the commissioners continue to refuse.

After adoption of the machines their use may be discontinued by a majority vote of the electorate under the same conditions specified for favorable action.

Most of the criticism leveled at the bill in its present form is aimed at any amendment which will permit any qualified elector to enter a voting booth to instruct a voter. Formerly such instruction was limited to a number of the election board. The bill requires that the person who instructs the voter must leave the booth before the machine is actually operated.

Economical Practice. The bill also provides the manner in which voting districts may be divided or consolidated so as to make use of the machines as economical as possible.

Final passage of the bill followed a long controversy, centering mainly between the two men who had sponsored such measures, both Senator Harris, Allegheny, and Senator Davis, Lackawanna, introduced such bills early in the session. Both are members of the elections committee in the senate but Davis is chairman.

After a long series of conferences the differences finally were ironed out and the two measures consolidated. The majority of the provisions are those in the original Harris bill. The bill bears the name of Senator Harris but generally is referred to as the Davis-Harris measure out of deference to the former who for more than a decade has urged adoption of voting machines.

Special Services At St. Mary's Church

Close Of Lenten Season Is Marked By Many Services At Church

In observance of Holy Thursday, which falls tomorrow, there will be special services at St. Mary's church.

At 8 a. m. there will be the procession of the choir boys and the girls in the transferring of the Blessed Sacrament from the main altar to the side altar. The main altar will be striped of all decorations in memory of the suffering of Our Lord. Thursday evening, Holy Hour will be observed with Rev. F. S. Clifford in charge and delivering the sermon. This service will be held at 7:45 p. m.

Friday morning, at 8 o'clock there will again be a procession of the choir boys and the girls, during which the Blessed Sacrament will be returned to the main altar. There will be the unveiling of the cross, also its adoration. At 3 p. m. and again at 7:45 p. m. there will be the devotion of the Stations of the Cross.

Saturday morning, at 7:30 o'clock there will take place the blessing of the new fires, the lights, the paschal and triple candles and the Easter Holy Water. Mass will be said at 8:15 a. m.

On Sunday, the Lenten season will be over and the special Easter services will be held. There will be a special Easter musical program by the choir of the church at 11 a. m.

Democratic Deficit Distributed Among Three Large Banks

Democratic Party Deficit From November Election Is Million And Half

Financial Report Filed With Clerk Of House By Treasurer James W. Gerard

(International News Service) WASHINGTON, March 27.—The Democratic National committee's loan deficit of \$1,500,000 is distributed among four New York banks, it was disclosed today in a financial report of National Treasurer James W. Gerard, made to the clerk of the house.

The committee owes: Bankers Trust company, \$300,000; Brooklyn Trust company, \$300,000; International Germanic Trust company, \$200,000; County Trust company, \$200,000.

In all previous reports the loans have been carried as made "through" the County Trust company. National chairman John J. Raskob announced last fall that the loans were

negotiated with the County Trust but actually were made with other banks. He did not name the other institutions.

Enormous Deficit

The total deficit of the Democrats, as given in the financial statement as of February 28, is \$1,525,572.32. In addition to the loans, the committee owed an estimated accrued interest of \$15,000; \$5,556.21 to the Bookwalter-Ball Greathouse Printing company of Indianapolis; \$4,104.25 to the Postal Telegraph company; \$911.83 for mimeographing work and is liable for \$15,000 for printing Governor Alfred E. Smith's campaign speeches, and \$14,217 indebtedness of the New York Democratic committee.

There is a surplus of \$105,140.05 in the current account of the committee, the report showed. The current surplus apparently reduced the actual deficit to less than \$1,500,000.

Between January 1 and February 28, there were contributions of \$126,337.28 from 24,949 contributors. Governor Smith's radio appeal was made January 17.

C. O. P. Fund Okay.

No statement of the proceeds of the

sale of Governor Smith's speeches is given, although there is listed an item of \$741.18 received from "interest on bank balances, sale of literature, etc."

The report showed that contributions of \$95,692.67 came in amounts of less than \$100, possibly the result of Governor Smith's appeal. The largest contribution in the period covered was \$10,000 from the Democratic club of Bronx county, New York.

The largest disbursement was the repayment of a loan of \$100,000 to National Chairman Raskob, being made in two payments on January 11 and February 8.

The Republican national committee, however, is sailing along with its head above water.

Its financial statement as of February 28 showed a surplus of \$257,899.66. Between January 1 and February 28 the Republican committee received \$49,284.46 and expended \$77,032.

Auto Mileage Has More Than Doubled

The average mileage for a day's motoring has more than doubled in the last 10 years, according to the finding of the national touring board of the A. A. A. From about 100 miles 10 years ago the average has increased to 234 miles today.

Better highways throughout the country, improvement of the automobile in ease, operation, comfort, stability and safety; sign posting and marking of highways, improved motor fuel and a tendency to liberalize speed laws have helped to make possible the "faster going."

Special Services At St. Vitus Sunday

Four Masses To Make Up Easter Services At St. Vitus Church

Rev. Nicholas DeMita, pastor of the St. Vitus church announced today that arrangements are being made to accommodate large crowds who will attend the special Easter Sunday services.

In order to do this four masses will be held with the first at 6:30, the second at 8:00, the third at 9:30, and the last which will be the high mass at 11:00, state DeMita. The resurrection of the Lord will be celebrated at the last mass.

Rev. DeMita assisted by Rev. L. Desmond McNamany will celebrate the four masses. A much larger crowd than those who attended the Palm Sunday services are expected to attend these services and approximately 1,000 people are expected to receive holy communion at these special services.

Sharon Man Is Killed By Train

(International News Service) SHARON, Pa., March 27.—Peter Waring 43, was instantly killed today when hit by an Erie freight train

while walking along the tracks. His body, badly mangled, was found 30 minutes after the accident by Glenn Shinder, an Erie employee.

A widow and five children survive.

Steward Quizzed Regarding Gems

(International News Service)

NEW YORK, March 27.—As the government was preparing to bring John P. McIntyre, former patrolman charged with being an intermediary of the international gem smuggling ring, to trial today, agents of the "flying squadron" boarded the Berengaria of the Cunard line at quarantine to quiz the chief steward, who succeeded William Ballyn, now under arrest.

After the grilling the steward, E. B. Pimbley, one of the oldest in point of service on the Cunard line, went ashore with the agents, although not under arrest, and was given a subpoena.

British Mission Reported Looted

Chinese Communists Reported Doing Considerable Looting

(International News Service)

LONDON, March 27.—Communist Chinese, who are on the war path against foreigners in Kiangsi and Fukien provinces, especially missionaries, attacked and looted the British Mission at Tingchow, 200 miles from Amoy, according to information received today by the British missionary society. The two British missionaries who were stationed there reported themselves safe.

News is anxiously awaited as to the fate of a mission in Fukien, which, it is feared, was attacked by the Red Chinese. There are a number of American and English missionaries stationed there.

Chinese Northern troops under Gen. Chang Tsung-Chang, have defeated the Nationalists at Chefoo, occupying the city without resistance, according to Chinese reports printed by London evening newspapers.

The Nationalists (supporters of the Nanking government) were reported in retreat towards Ninghaichow. The United States Cruiser Trenton and the Armed British Sloop Cornwallis moved inshore at Chefoo near the foreign quarter to protect the lives of foreign residents.

Liquor For Fuel Gag Fails To Fool Cops

WATERLOO, Ind., March 27.—John Bozhkow has a queer sort of stove.

Waterloo police think so, anyway. For when they answered a riot call at John's residence and found a quart of liquor and a bottle of bay rum on his person John told them it was fuel for his stove.

The police were dubious, however, and carted John off to Judge J. C. Beem, who told John he could enjoy heat at the expense of the county for thirty days.
